DAIRY INDUSTRY.

Agitation to Secure Better Weights on Shipments of Cheese.

Shipments of Cheese.

There were comparatively few cheese onarded at the cheese market here on Saturday last, and the attendance of factorymen was small. The price of goods seems to be going up and salesmen are looking for something like 12½ cents a pound for September and October cheese. Whether they will attain their desire or not is hard to say, but the indications are that most of the fall goods will bring considerably over 11 cents.

Quite a little excitement was created among the factorymen when a notice of

Siderably over 11 cents.

Quite a little excitement was created among the factorymen when a notice of motion was given by one of the buyers to have a resolution passed that in all transfections between buyers and sellers on the London market one-half pound extra be given above the weight of cheese marked on the box at time of shipment, to take effect at the beginning of 1894. This motion will come up for discussion on Oct. 28, and will no doubt bring forth strong opposition from some of the salesmen. A few of the factorymen look upon it as a scheme on the part of the buyers to secure a little more cheese from them. They seem to come to this conclusion without considering fully the facts of the case and without weighing carefully the arguments on both sides and the effect that such a resolution would have in prejudicing the old country dealers in favor of Western Ontario cheese. The buyers complain that they do not get sufficient weight from many of the factories in the west, which makes it very difficult for them to give the best satisfaction to their customers in the old country, who are becoming somewhat prejudiced against sending their orders here, and prefer to send them where they can get better weights.

All Canadian cheese exported are bought

send them where they can get better weights.

All Canadian cheese exported are bought by the British dealer according to the invoice of weights when the cheese are shipped from the factories or local railway points of shipment, and consequently the district or locality which gives the best weight is going to get the preference, providing the quality is as good and other conditions as favorable. In Eastern Ontario all cheese are sold subject to their holding out good up-beam weight in Montreal. In the Eastern States somewhat the same regulation is in force, and all cheese are sold subject to the New York weights, consequently these sections will get and are getting the preference, and the British dealer is sending more of his orders there because he feels that he is getting better satisfaction in weights, and the shrinkage is not so great.

is not so great.

It is not expected that the western factorymen will guarantee weights in Montreal and it would not be fair to demand it, as the distance is so great, but considering the facts that our competing districts have made au effort to meet the wishes of the dealers, in this matter and that the British dealer is showing a preference to buy his goods in these sections, it does seem reasonable that the factorymen should adopt some means of overcoming this preference and endeavor to retain the present trade and secure more orders for Western Ontario.

trade and secure more orders for Western Ontario.

The buyers claim that if the salesmen of the factories represented at the different chease markets in Western Ontario will agree to give one-half pound box up-beam weight above the weight marked on the box, and have it come in force next year, it will have the wholesome effect of removing any objection that the British desler may have to sending his orders to Western Ontario, and will make him more favorable towards our western goods if he knows definitely that he is going to get good weight. This extra half pound will not man so much to the factorymen as would seem at first sight. Under the present arrangement of full up-beam weight at the point of shipment it often happens that a cheese will go ½ or ¾ of a pound above the even pound, and this is that as no fraction of a pound is taken. In these cases the transport of the even pound would not hold out, and one pound would not be deducted.

A resolution to the same effect as the one to come before the London market was passed at the Woodstock cheese market not long ago, and will come into force next season in that locality. If there is any benefit at all to be derived from such a resolution it should be adopted by all the boards in Western Ontario, and it is hoped that the buyers and sellers of cheese will come to something definite in regard to the difficulties conceptablished in Western Ontario, If the reputation were once established in Western Ontario of giving good weight at the factories, and the dealer could rely on getting cheese that would bable to get a higher price for our cheese, and what the factorymen would lose in one way they would gain in another.

TRAGEDY NEAR CHATHAM.

A realern Red Man Attempts to Mur.

TRAGEDY NEAR CHATHAM. The buyers claim that if the salesmen of

His Own Lite.

CHATHAM, Oct. 16.—In a hut on the Wilson estate, lot 25, con. 2, Harwich township, about two miles from Fargo, a frightful tragedy was enacted yesterday atternoon. Wm. Dodge, an Indian, 30 years of age, attacked his wife with a huge kuife, hacked her almost to death and then put a builet into his own brain. Jealousy is supposed to be at the bottom of the frightful crime. The woman was not dead, but her body was horribly gashed in the back, neck and head. Dr. Bray, the coroner, ordered her removed to the hospital.

We have no hesitation in saying that Dr. J. D. Kellegg's Dysentery Cordial is with cut doubt the best medicine ever introduced for dysentery, diarrhoa, cholera and all summer complaints, sea sickness, etc. It promptly gives relief and never fails to effect a positive cure. Mothers should never he without a bottle when their children are teathing.

The English yacht builders must come down to the center-board or keel over when

a close race is on. It is noticeable that the man who thinks

Liberal Tariff Platform.

We, the Liberal party of Canada, in convention assembled declare:

That the customs tariff of the Dominion should be based, not as it now is, upon the protective principle, but upon the requirements of the public service.

That the existing tariff, founded upon an unsound principle and used as it has been by the Government as a corrupting agency, wherewith to keep themselves in office, has developed monopolies, trusts and combinations;

It has decreased the value of farm and

other landed property;
It has oppressed the masses to the enrichment of the few;
It has checked immigration;
It has caused great loss of population;
It has discriminated against Great
Britain.

occasioned great public and private injury, all of which evils must continue to grow in intensity so long as the present tariff system remains in force.

That the highest interests of Canada demand a removal of this obstacle to our country's progress, by the adoption of a sound fiscal policy, which, while not doing injustice to any class, will promote domestic and foreign trade and hasten the return of prosperity to our people.

That to that end, the tariff should be reduced to the needs of honest, economical and efficient government.

That it should be so adjusted as to make free, or to bear as lightly as possible upon the necessaries of life and should be so arranged as to promote freer trade with the whole world, more particularly Great Britain and the United States.

We believe that the results of the protective system have grievously disappointed thousands of persons who honestly supported it, and that the country in the light of experience is now prepared to declare for a sound fiscal policy.

The issue between the two political parties on this great question is now clearly defined.

The Government themselves admit the failure of their fiscal policy, and now profess their willingness to make some changes, but they say that such changes must be based only on the principle of protection.

We denounce the principle of protection

protection.

We denounce the principle of protection We denounce the principle of protection as radically unsound and unjust to the masses of the people, and we declare our conviction that any tariff changes based on that principle must fail to afford any substantial relief from the burdens under which the country labors.

This issue we unhesitatingly accept, and upon it we await with the fullest confidence the verdict of the electors of Canada.

VERY. VERY LOW.

VERY, VERY LOW.

[Ottawa Free Press.]

Meredith's stock appears to be very low just now. A few days ago an attempt was made to nominate a Conservative candidate for the Provincial Assembly in Prince Edward county, but nobody could be induced to stand. On Saturday Messrs. A. F. Campbell, George Marter and A. Miscampbell, followers of Mr. Meredith, went the South Wentworth to stir up their friends and induce them to

As usual, we make a specialty of the decrease that would hold out weight, no doubt we would be able to get a higher price for our cheese, and what the factorymen would lose in one way they would gain in another.
