POPE'S DOCTORS OPERATE IN ORDER TO GIVE RELIEF

Every Effort Made to Ease Last Hours of Pontiff.

BIDS HIS RELATIVES FAREWELL

Despite His Extreme Weakness the Venerable Patient's Mental Facultles Are Undimmed.

Rome, July 7, 10:45 a.m.-An operation for puncturing the pleura will be performed on the Pope at 11 o'clock with a pravaz syringe.

Following is the text of bulletin regarding the condition of the Pope issued at 9 o'clock this morning.

The Pope passed a restless night, without sleep. Nourishment, however, had been more freely taken and the general condition is a little more reassuring. An objective examination shows a change in the right of thorax and the middle lobe of the lung, which up to yesterday did not permit the passage of air, now allows the air to penetrate. On the other hand, the interior zone has become more irregular and the transmission of vocal and tactile ed regarding the printed opinions and vibration is wanting. This leads to the belief that there is liquid in the pleura. An experimental incision will world general regret at his condition is be made. Receives Address From the Corporation of London and Deputation

London, July 7.—President Loubet today called at the French hospital and visited the home for French governesses. Passing through the accident ward of the hospital, he stopped to condole with a corporal of a detachment of Life Guards, forming his escort, who was injured by falling from his horse outside the hospital. The President returned to St. James Palace at about 10 o'clock. He was everywhere greeted with great cordiality and cries of "Vive Loubet," in response to which he continually

raised his hat. A reception was accorded a deputation from the diplomatic corps, and shortly after noon the President, accompanied by Ambassador Cambon and Foreign Minister Delcasse, started in semi-state to visit the city.

Shortly before 1 o'clock the Prince of Wales and the Duke and Duchess of Connaught, preceded by Life Guards, royal party joined the lord mayor, Sir Marcus Samuel, Premier Balfour, the ment of Life Guards and outriders then rode up and amidst a good volley of cheers President Loubet drove in. The President jumped out of the carriage, shook hands all round, and after

an address from the corporation had been presented to him, M. Loubet proceeded to luncheon. After luncheon the Lord Mayor toasted the President of the French Republic. In reply M. Loubet said he was happy to bring to the heart of the City of London a cordial greeting from the French people. "The presence at my side of the Minister for Foreign Affairs of the

republic," he said, "is a pladge to you of the value which the whole French Government attaches to the development of these happy relations of friendship between our two countries.' Foreign Minister Delcasse had a long conference with Foreign Minister Lansdowne this morning, and M. Delcasse also lengthily conversed with the Russian ambassador, Count Benikodoroff, after the latter had visited President Loubet.
