If the Canadian mare improves, as she no doubt will, she will be easily the fastest pacing mare in the world.

According to the statistics of the American Association, Eddie Siever, the former Londoner, ranges first in pitching feats, with ten shut-outs to his credit. He pitched two two-hit games, three four-hit games and five five-hit games. He also holds the record in his league for strike-outs-eleven in one game. In one game, not a man reached first base in the last seven innings. and he struck out the three men up in the ninth. Not bad for a pitcher who was supposed to be all in.

There will be foot races and bicycle contests, and on Sunday the Pope will give a reception to the gymnasts and distribute prizes to the winners. A union of all the Catholic recreation societies of Rome is about to be formed.

Negotiations between Arthur Duffy, former champion runn r of the world, and Archie Hahn, the crack Western sprinter, may result in a match race between Hahn and J. W. Morton, the English champion, at Madison Square Garden, New York, next week. Duffy is in charge of the athletic events which are to be a big feature of the second annual physical culture show at the garden next week. He has secured Morton's promise to appear in the games which are sanctioned by the A. A. U. and in which only registered amateurs can appear. Duffy is trying to arrange a hundred yard race between Hahr and Morton.

An extra long programme of sports was carried out and interest never laxed in the games until evening approached.

The entire programme was put through with the exception of the stilt race, the tennis and the walking match for teachers. The latter were too busy attending to the other events to have one of their own. Each event was keenly contested, and the winners won hearty applause. The hands of the officers in charge were full, figuratively speaking, all afternoon, and to them is due the very successful outcome of

the day's sports. The football match between the L. C. and the Y. M. C. A. was a feature of the afternoon's sport. The familiar voice of Mr. R. A. Little was heard on the field, this time as referee, but his interest in the good old game led him to applaud every worthy play of his schoolboys, although he was fair in every way in his rulings. The result of the game was a tie-1 to 1which was not played off owing to the lateness of the hour. The respective

Roosevelt Discusses Framing of a New Railway Measure.

Washington, Oct. 6.—President Roosevelt today took the first step in the money. The London horse led on the strenuous campaign which he intends but the other waging during the coming winter for caught him on the way home and beat railway rate legislation. He conferred The 2:50 pace was won in straight with Representative Townsend of heats by McCarty's (Thamestord) tast Michigan, part author of the Townsend-Esch Bill, which passed the House Madge W., made her step lively in the of Representatives last winter and which was held up in the Senate. Mr. Townsend was invited hither by the President and will call at the White House again tomorrow to discuss with Mr. Roosevelt the details of a new bill to be introduced as soon as Congress reassembles. It is unnecessary to repeat that President Roosevelt intends making railway rate legislation the most prominent feature of his national policy 3 3 3 during the winter. Not only will he treat of the subject at some length in his annual message, but he intends to discuss it publicly during his forthcoming tour of the South.
