EXECUTIVE MEETS.

TANNER IS NAMED FOR NEW OFFICE

Secretary of Board Expected To Be Chosen as Purchasing Agent.

A private conference was held at 10 o'clock this morning between Trustees Roy Cairncross, Dr. Alfred J. Grant, and V. K. Greer, chief inspector of public schools. Inspector Greer is mentioned fo

the position of inspector-secretary of chief executive officer, the creation of which position is known to be recom mended in the Brittain report on the educational survey.

It is understood, further, that the authority of E. A. Miller, at present principal of the collegiate institute

and H. B. Beal, now principal of the

Technical high school, will be con-siderably enlarged and their responsibilities correspondingly increased with their respective departments. The plan suggested in the Brittain report would appont Inspector Greer as chief executive officer, with the architect, works, attendance and purchasing departments directly respon sible to him, instead of to the board as at present. Such a move would tend to unify the whole system, Dr. Brittain claims, by way of co-or-dinating a number of departments which, under the present scheme, function as independent units.
