

Shamrocks' Four to Three

The Montrealers Capture First Game in Spite of Grand Play by Rivals.

Degenerated Into Time Killing Contest to the Hoots of Crowds.

From Our Own Correspondent.
New Westminster, Sept. 29.—The annual exhibition, under the auspices of the Royal Agricultural and Industrial Society, is now in full swing. The exhibition promises to be a grand success and was opened this afternoon by President Trapp in the presence of the Lieut. Governor and Premier.
The exhibits of stock are finer and better than ever before. The poultry building is full, with the first annual show over the roof. The districts' exhibits are very good, particularly Chilliwack, while the Experimental Farm played a most interesting part in that institution. Every available space for side shows, etc., is taken and there is a regular midway. Fruit exhibits are excellent and up to the usual standard.
The lacrosse match this afternoon was won by the Shamrocks 4 to 3, although they had no license to win, as the home team outplayed them in the last half, but although at half time the score was 2 to 0 against them and a few minutes later the Shamrocks again scored. The Westminsterers settled down to work and managed to even the score. However, the Shamrocks were again soon in the lead. In the last quarter the Shamrocks saved the situation by the old-time passes, bunching the flags and killing time to the hoots of their opponents at the meeting on Saturday.

Lord Milner Still Hesitates

Prolongation of Ministerial Crisis Adds Discredit to Government.

Three Hours Consultation with Premier But No Decision Announced.

London, Sept. 29.—A prolongation of the ministerial crisis seems likely, judging from newspaper comment, to victory over the Liberal government. The decision is commencing in Conservative as well as Liberal papers as emphasizing the Conservative ranks. The Premier's reluctance to accept office is attributed, among other reasons, to his interview with Lord Rothschild, who said that he was convinced that the Liberal papers is the absence of a responsible Chancellor of the Exchequer at the moment that the country is experiencing a serious financial crisis, needing the presence of a strong finance minister. The Daily News ridicules the idea of placing a practically untried man such as Austen Chamberlain in the position of Chancellor of the Exchequer at a grave crisis, when Great Britain is threatened with a serious loss of credit and a possible shock to the whole banking system.

In shipping circles large quantities of grain continue to arrive by water, and in this respect large shipments for export are expected.
