S.TUDEBAKER Announcement To The Canadian People

THE existing prices of Studebaker Automobiles were determined, as they have always been, on the basis of exact quality of value between the American and Canadian dollar. Prices will not be increased to cover losses in exchange unless they become considerably more serious than they are at present, which we believe is unlikely. This corporation is a Canadian industry, employing Canadian labor, investing its surplus funds in Canadian Government securities, depositing its working capital in Canadian banks, and paying large taxes to the Canadian Government. It respects and values the good will and patronage of the Canadian people, and will not take advantage of a temporaay emergency to increase the prices of its cars.
