THE LONDON TIMES APPLAUDS CANADA

Fine Tribute to the Financial Aid Accorded Mother Country in War.

London, March 12.—With reference to the award of former Premier Asquith as arbitrator of the differences between the British and Canadian Governments in the adjustment of debts standing over from the war, the financial editor of the London Times says this virtually completes the settlement of the financial transactions between the Governments of Great Britian and Canada. In connection with the war Canada altogether advanced to Great Britain over one thousand million dollars and the Canadian banks granted advances of approximately three hundred million dollars.

"In making such large advances," the Times' financial editor continues, "Canada played no small part in providing the sinews of war, and the readiness with which she agreed in 1918 to the arrangement of set-offs proposed for the British treasury is fully recognized on this side. There would never have been any question of the rate of exchange if the form of advance had been clearly defined when originally made. The dispute really arose in consequence of cerical ommissions.

"In placing dollars at our disposal and accepting sterling in repayment, part of them at par, in the cancellation of mutual indebtedness, Canada has made a contribution to the English cost of the war which everyone must recognize.

"It is a fact that in addition to sending half a million men, the cost of which was borne entirely by the Canadian people, Canada provided facilities for the Imperial Government on favorable terms and this will enhance, not harm, her credit."

PRESENTATION TO REV. AND MRS. E. J. SHAW

On Tuesday evening Feb. 27th at the home of Mr. and Mrs. Gordon Keays of Miller Section in the congregation of Dalhousie the close of Cottage Prayer Meeting brought a pleasant surprise to the Pastor and his wife, Rev. E. J. and Mrs. Shaw.

A large number gathered representing all parts of the congregation. Mr. John McEwan of Upper Charlo was appointed Chairman who related the programme for the rest of the evening. Mr. James Wright a Veteran Elder was called upon to read an adress expressing the esteem and good will of the congregation. Then Mr. Charlie Miller conducted the pastor a short distance and in a few well chosen words on behalf of the congregation presented him with a beautiful sleigh as a token of esteem and Mrs. Wiliam Miller on behalf of the ladies presented Mrs. Shaw with a handsome tea set and a waiter's tray as an evidence of their friendship. Mr. Shaw suitably responded and thanked them for their friendship and good will. Then the chairman called on Mr. J. E. Dean of Dalhousie for a speech feelingly spoke of the happy relations between pastor and people.

After a dainty lunch was served by the ladies a splendid musical programme was carried out. On the whole a most enjoyable evening was spent the meeting come to an end in the usual jovial manner.

Address

Dear Mr. and Mrs. Shaw:

We, the members of your congregation respectively ask that you and your esteemed wife accept this modest gift, not on account of its intrinsic value, but as a small token of our esteem for you, and as an evidence of our good will, which will be further manifested as time rolls on.

We sincerely trust that you, Mrs. Shaw and your family will enjoy the same.

Nervous Feeling Due to Gas on Stomach

Pressure of gas on heart and other organs often causes a restless, nervous feeling. Simple buchorn bark, glycerine, etc., as mixed in Adlerika, expels gas and relieves pressure and nervousness almost INSTANTLY. Acts on BOTH upper and lower bowel. Adlerika removes matter you never thought was in your system which poisoned stomach, causing gas and nervousness. EXCELLENT to guard against appendicitis. A. McG. McDonald, Druggist... ... ...

No Longer Fears Whooping Cough

Toronto Mother Tells of New Vaporizing Salve.

The quick direct treatment for colds of children and grownups, too, is an application of Vicks over throat and chest at bed-time.

Not only is Vicks absorbed thru the skin, but its healing vapors of Camphor, Menthol, Eucalyptus, Turpentine, etc., are breathed all night directly into the affected air passages.

Relief usually comes by morning. Just as good, too, for cuts, burns, bruises and itching skin troubles.

Mrs. William Morrison of 114 Sheridan Ave., Toronto, says: "Last fall our baby had whooping cough so bad that we were afraid of losing her. I heard about Vicks Vapotub from my neighbors and decided to try it. Every morning and night I applied it, as directed on the pamphlet inside of the package, and it worked wonders. It seemed to break up the cough and ease her, especially through the night when it was most troublesome. I have also used it for colds with good results and would not be without it."

At all drug stores 50c a jar. For a free test size package, write Vick Chemical Co., 844 St. Paul St., W., Montreal, P. Q.

Though Vicks is new in Canada, it enjoys a remarkable sale. Over seventeen million jars used yearly.

It is expected that Dalhousie's four mills will begin operation this spring out. This gives promise of increased as soon as the Restigouche drive is activity in the lumber business on the north shore this summer. Two of these mills were shut down last summer while the shingle mill there has not operated for the last two years.

WILL NOT RENEW EXISTING LEASE

Premier Veniot Makes Important Statement Re Grand Falls.

"The decision of the Government is that the present rights and leases in connection with the Grand Falls power will not be renewed after they expire on May 1st next," Hon. Peter J. Veniot announced in his first speech in the Legislature as Premier on Tuesday afternoon.

The new Premier made this definite statement in the course of an important pronouncement in connection with the agitation that the rights now held by the Grand Falls Company, which is controlled by the International Paper Company interests of New York, be not continued and asking that the Government undertake the development of the water power at the Grand Falls on the St. John river, the most potential natural water power in Canada east of the Niagara Falls, as part of the activities of the New Brunswick Electric Power Commission.

The Government is not in a position at the present time, the Premier said, to cancel the existing leases and rights and could not do so even if it wanted to until May 1st next, but, he announced, the decision of the Government is that they will not be continued. "The policy of this government," Hon. Mr. Veniot resumed, after the applause which greeted his announcement had subsided, "is that no longer shall companies be able to dangle franchises before capitalists and prevent the people from enjoying the full benefit of the natural resources of this province."

Urges People to Be Patient.

In respect to the prospects of Government development of the Grand Falls, Premier Veniot said that he wished to urge patience upon the part of the people and to say that caution would be the watchword of the Government in deciding whether or not to enter upon such a vast undertaking. The Government, he said, was now investigating both the cost of carrying on the development as well as the possible market for the power in the event of the development taking place and if it could be shown that the development can be carried out and the interests of the province be thoroughly safeguarded, the chances were it would go on.

But I cannot state the policy of the Government in that regard until we have had time to gather all of the necessary information," continued Premier Veniot. "I want to ask the people of the province that they be patient. They are assured now, as a result of the statement I have already made, that no company will be able to retard the progress of this project when we arrive at the time to go ahead. But give the Government time to go carefully into the matter and to be sure that there will be a market which will yield sufficient revenue from the sale of the power to meet all the charges in connection with the project, including interest charges, depreciation and sinking fund before we are pressed to embark upon a proposition of such magnitude. It [illegible] connection with the development at Musquash—and I don't say there have been any—but if there have been any we will have the advantage of the experience gained in connection with that matter to guide us in what we do at Grand Falls.

"In conclusion, I want to say very positively that no undertaking will go on at Grand Falls until this Government is convinced, absolutely convinced, that the province's financial interests can be thoroughly protected."

DEVELOPMENT OF GRAND FALLS

Edmundston Wants 5,000 Horse-Power—Enough Business in Sight.

St. John, March 12.—C. O. Foss, chief engineer of the New Brunswick Hydro-Electric Commission, returned on Saturday from St. Leonard's Edmundston and other places in northern New Brunswick. He had a meeting with the town councillors of Edmundston on Friday at which they decided to contract for 5,000 horse-power upon the completion of the Grand Falls development if the province should decided to go on with the work.

This is a decision of no little importance because of Premier Veniot's intimation that a decision by the province to harness Grand Falls might depend very largely upon the proof that there would be a market for a considerable amount of power, so that the province would be virtually assured of a return upon its money.

It is now known unofficially that the Bathurst Lumber Company, the Fraser Companies, Ltd., the International Paper Company and some other interests would welcome power at the price at which it could be delivered through provincial development of Grand Falls. Already there is in sight a sale at the beginning of more than enough power to justify the government in making the expenditure necessary for the initial unit at Grand Falls, and the first development could readily be expanded by further expenditures as these are justified by the load to be picked up through transmission lines in various directions, Campbellton being the first example.

RESOLUTION PASSED BY MIRAMICHI PRESBYTERY

The following resolution was passed at the recent meeting of the Presbytery of Miramichi in connection with the enforcement of the Provincial Prohibition Act. "The Presbytery of Miramichi, having read with interest the published reports that the Premier of New Brunswick has given orders for a thorough enforcement of the Provincial Prohibition Act, hereby pledges its fullest co-operation with the authorities in such an effort; and further, we urge upon the Government of the Province the necessity of passing, without delay, an order-in-council that will abolish the importation of liquors into the Province for export purposes; and further in appointing vendors and inspectors under the Prohibition Act, we urge that only those be appointed who are reliable and incorruptable."
