WALL STREET GOSSIP. stay, and wante which have been sufficient inportance to cause any apprehension. The buying of Reading to-day seemed to be directly by the friends of the company, and it is said, both in Philadelphia and here, that previous to the sailing for Europe of men who have the placing of the 4 p. c. bonds every effort will be made to lift stock to a line which will warrant European investors, paying a fair price for the new morigages. There is no new story either in connection with Oregon, Texas Pacific or N. E. The comparative strength of those stocks was due simply to the operations of brokers who have been conspicuous manipulators during the past week. Of all the favorable rumors of new management, large earnings and consolidations, nothing has crystalized. But it's said that in view of renewed good feel. rumors of new Bassatter and consolidations, nothing has crystalized. But it's said that in view of renewed good feeling there can be no laggards and that fancy and dividend stocks sike must share in the coming upward movement. Gould says the trouble with Kansas and Toxas is that when it was reorganized some years ago its obligations were not out down. A plan was suggested like this to reduce all interest charges be a per cent.

On April 1st 19 new postoffices were opened in Canada, and seven old ones were closed.

During March Canada imported \$16.171 worth of agricultural implements, \$134,757 worth of grain of all ginds, \$472,207 worth of coal and coke, \$49,219 worth of fish, \$108,515 worth of girs, \$577,255 worth of in and steel, \$108,531 worth of watches and jewelery, \$311,919 worth of silks, \$1,09,217 worth of woolen mandactures, and \$4.760 worth of ale, beer and porter.

The advices from Chicago are anything but hopeful. The business of the Granger roads as compared.

7, is illustrated by the falling off on the survey of the granger roads have for the three weeks of April this year brought 160,000 buriels less wheat, and two and a half million bushels of corn less than for the same three weeks last our, at rates not over one half of those in force ast year. These facts speak for themselves.

CALL AND SEE THAT

I am manufacturing on the premises and I am certain you will be convinced it is the best value in the Dominion. Some may not understand how I sell a fine fashionable flat at the price, but it is very simple. I pay no duty on the Silk Plush or Trimmings used in the manufacture of it, as I import them direct for use in my Factory, thereby making a saving of from 25 to 35 per cent. on the cost, which goes to the benefit of the purchaser, whereas flats that are imported the importer pays duty on the labor, trimming, boxes, etc., making the cost very high.

Don't forget to see this Hat before purchasing elsewhere, Fine Furs on view and for le the year round.
