VOI.. I.

MONTREAL, OCTOBER, 1837.

No. 6.

ADDRESS.

As the funds of this paper are so very low, that, unless speedily and greatly increased, this important undertaking will prove a considerable loss to the Montreal Bible Society, the Committee are induced to press on those who have had the kindness to act as Agents, to exert themselves to procure payment for the copies sent to them, and to Subscribers who have not paid to pay their respective amounts.

The liberty was taken some time since to send copies to a few, who, it was supposed, would subscribe; this present number will in like manner be sent to other individuals, and it is hoped that all, when called on, will readily yield the small sum which constitutes the subscription to a paper so valuable in its object, as the present. The great need of such a work is evident—to make known to the friends of religion what is doing in the glorious work of disseminating the Bible—to induce its perusal—recommend its doctrines—vindicate its authority, and aid in breaking the seal which, to many, is placed on its blessed contents; considerations which, when duly weighed, must assuredly lead to a conviction of the importance of a periodical like the BIBLE ADVOCATE.

To the Editor.

DEAR SIR,—I have always admired the following passages ever since I first read them. You have alluded in your history to the Naval and Military Bible Society, as formed in the year 1780. The extracts I send you are from a sermon preached in behalf of that Society, by the Rev. R.

Robinson. He who can read them without being affected by them, must have but little sensibility and less religion. Wishing success to your publication as a means of extending the circulation and the knowledge of the Sacred Volume, I am, your's respectfully,

THEOPHILUS.
