

BRANCO FOR ENGLAND - Sheffield on the 9th May was visited with a heavy snow storm, a thing never known before. War in Europe is fanning its bloody head. The French Emperor has restored the death penalty for political offences, another breach of the republican platform. The North American platform of 1850 received deadly stabs at Quebec by the Hincks coalition cabinet, yet this patriots is at a - what can't pay do - Smith's Bill to make members of Parliament independent, one would have received his warmest eulogy, now he condemns it. Separate schools to please Catholics, two are passed over by him, and even the Examiner only regrets them. Our Country to hold itself cured by Anarchy only and pap sekers. This immense patronage of Government must cease. The taxes of the people and our revenues are voted away in Quebec in all shapes and will out any regard to economy.

PROTECTION FROM LIGHTNING!! BY E. V. WILSON AND H. PIPER & BROTHER,

(ON THE PRINCIPLE OF JAMES SPRETT,) ELECTRICIAN AND ELECTRO-METALLURGISTS, AT THEIR WHOLESALE AND RETAIL. Lightning Rod Manufactory, On Yonge St. between King and Adelaide Sts. TORONTO, C. W.

At which place we beg to offer our Superior Spiral Twisted Annealed Iron Lightning Rods, with Zinc Protectors, and Electro-Positive Elements combined in their Manufacture, thus rendering them equal to Copper as conductors. They are in ten, twelve, and fourteen feet lengths, with accurately fitted brass screws connecting joints, an entire new style of metallic attachments for brick or frame buildings, also Glass Insulators of a novel and ingenious construction, forming a lock. The whole mounted with a solid platinum Sinter Plate, fourteen inches long, surrounded at the base with three angular negative magnets, which prevent the passage of an extraordinary extent of discharging the opposite elements of the most fearful thunder storm, and ensure the entire perfection of safety up to the present time; the whole constituting the most magnificent and perfect Patent conductor ever presented to the public. The public are cautioned against purchasing Rods of any person or persons unless they possess a certificate of agency, signed E. V. Wilson, L. R. Agent, and their simple Patent, stamped Sprett's Re-producing Patent, 1852, as we are not answerable for rods put up by any person unless they have our certificate as above. Your attention is called to the above caution from the fact that several parties have offered to the public an inferior article, plated, tinued, and otherwise glossed over, when in truth they are not worth anything as Electric Rods, nor do the parties offering them know anything about the laws of electricity, consequently it is dangerous to employ ignorant men to protect your buildings and your lives. E. V. WILSON, & H. PIPER & BROTHER
