

this is distinct and not a variety of *Jucunda*. Both have been accidentally omitted from the "New Check List."

TRICHOCOSMIA, n. gen.

Allied to *Cosmia*, but with hairy eyes. Vestiture flattened hair, mixed with broader scales on thorax, close and short. Wings entire. Abdomen untufted, a little exceeding secondaries. Tibiæ unarmed. Surface of the unlashd eyes covered with short hairs. Clypeus smooth. Palpi rather short. The type is a smaller insect than *Cosmia Orina*, with similarly shaped wings.

TRICHOCOSMIA INORNATA, n. s.

♂ ♀. Fore wings faded reddish ochery, markings obliterate. In the freshest specimens the pale s. t. line may be made out, a rounded t. p. line, somewhat broadly shaded with darker ochery; a stain on median vein. Hind wings pure white above and below, immaculate. Thorax like fore wings. Abdomen white. Arizona. Six examples. In coll. B. Neumoegen, Esq.

CAPIS CURVATA, Grote.

Mrs. C. A. Fernald has kindly sent me a male which I have examined and given all the structural characters possible, but those previously given would allow of the genus being placed next to *Sisyrhyphena* in a synopsis.

BYSSODES OBRUSSATA, Grote.

A well marked male in Mr. Neumoegen's collection from Indian River has the fasciæ bright yellow; on hind wings the red spots reduced and an orange border to the wing, running also outside the metallic band. The color of the common band varies in depth. Veins on secondaries sometimes marked with yellow.

URAPTERYX POLITIA, var. FLORIDATA, n. var.

♂ ♀. Belongs to Guenee's Group 2, but differs in detail from all the species he describes. Primaries and secondaries dark yellow, the former with a small purple costal v-shaped spot, the wings are sparsely speckled with purple, which is gathered into larger patches subterminally and about anal angle. A discal dot. Hind wings with a purple straight line bordered by a small dark spot before anal angle. Beneath the line is repeated more diffusely and above the wing is washed with purplish before line, the color widening to internal margin. *Expanse* 44 mil. Indian River. Coll. B. Neumoegen, Esq.
