

WE do not know of any stronger guarantee of the intrinsic merit of

GADUPHOS

than the fact that it is prepared in the same laboratory as Kasagra.

Where a nutritive alterative and nerve tonic is indicated, Gaduphos

is the Preparation

that will give you satisfactory results.

Gaduphos is a combination of Cod Liver Extractives and true Glycerophosphates. Gaduphos can be used freely every day in your practice.

Would you like a sample ?
