TENDERS FOR GRANOLITHIC WALKS

enclosed in sealed envelope marked "Tender for Walks," and addressed to the undersigned, will be received until 6 o'clock p.m. of

**Saturday, the 24th Day of
August, 1901;**

for the construction of the whole or any of the following walks:

One Granolithic Walk, about 691 feet long by 5 feet wide, to be built on the west side of Marlborough Street, from Race Street to Water Street.

One Granolithic Walk, about 537 feet long by 5 feet wide, to be built on the south side of Water Street, from Marlborough Street to Gloucester Street.

One Granolithic Walk, about 536 feet long by 5 feet wide, to be built on the north side of Water Street, from Marlborough Street to Gloucester Street.

One Granolithic Walk, about 542 feet long by 3 1/2 feet wide, to be built on the west side of Gloucester Street, from Water Street to First Street.

A certified bank cheque for ten per cent. of the value of the work tendered for, and payable to the order of the Treasurer of the Town of Cornwall, must accompany each tender, otherwise the tender will not be considered. This cheque will be forfeited if the person whose tender is accepted refuses to sign the contract and proceed with the work.

The work must be fully completed on, or before, the 1st day of October, 1901.

Plans and specifications can be seen at the office of F. D. McNaughton, Town Engineer, and forms of tender can be obtained from him on and after August 15, 1901.

The lowest or any tender not necessarily accepted.

By order,

GEORGE S. JARVIS,
Town Clerk.

Town Hall, Cornwall,
August 15, 1901.

TENDERS FOR SEWERS

IN THE

TOWN OF WALKERTON

Tenders will be received by the undersigned up to **MONDAY, AUGUST 26TH**, at 4 p.m. for the construction of a sewer about 3,750 feet in length or more, or as decided upon by the Committee, made up as follows: About 792 feet of 10 inch; 1,188 feet of 9 inch; and about 1,400 feet of 6 inch piping. There will be 7 manholes, also the necessary junctions. The average depth will be about 8 feet.

Plans and specifications may be seen at the office of the town clerk, Walkerton.

A marked cheque for the amount of 5 per cent. of the tender price, made payable to the town treasurer of Walkerton, must accompany each tender for the proper entering into a contract for the performance and completion of the work.

The lowest or any tender not necessarily accepted.

(Signed) **R. H. MCKAY**

Chairman of Public Works,

Walkerton, Ont.

Walkerton, Ont., August 12th, 1901.

TENDERS FOR DEBENTURES

Sealed tenders, addressed to J. M. Stewart, M.D., Reeve, Chesley, Ont., will be received until **MONDAY, SEPTEMBER 9TH, 1901**, for the purchase of \$12,442.81 Local Improvement Debentures, guaranteed by the Village of Chesley, dated January 1st, 1901, and falling due twenty years after date of issue.

These debentures have interest coupons attached, and bear interest at 4 per cent. per annum, payable annually.

Tenderers are requested to state a bulk amount, payable September 9th, which amount shall include accrued interest since January 1st 1901.

The said debentures will be delivered in Chesley to the party whose tender may be accepted within thirty days from receiving and opening tenders.

The highest or any tender not necessarily accepted.

- **JOS. McNEEL,**
Clerk.

Chesley, August 13th, 1901.

BRIDGE NOTICE

Sealed Tenders, marked "Tender for Superstructure of Andover Bridge," will be received at the Department of Public Works, Fredericton, until

**Monday .30th day of September,
1901, at noon,**

For building the Steel Superstructure of "Andover Highway Bridge," across the St. John River, connecting the Villages of Andover and Perth, Victoria County, N.B., according to Plans and Specifications to be seen at the Public Works Department, Fredericton, N.B. The structure consists of five through pin connected truss spans, each 188 ft. 10 in. in length from centre to centre of end pins. For detail information relating to plans and specifications apply to A. R. Wetmore, provincial engineer, Fredericton, N.B.

Each tender must be accompanied by a certified bank cheque or cash, for an amount equal to five per cent. of the tender (which will not receive P.O. orders), which will be forfeited if the party tendering declines to enter into a contract when called upon. Should the tender be not accepted the deposit will be returned. Two good sureties must be named in each tender. Not obliged to accept lowest or any tender.

C. H. LAMBLOIS,
Chief Commissioner.

Department of Public Works,
Fredericton, August 13th, 1901.

TENDERS

Tenders addressed to the undersigned, will be received until the **24TH DAY OF AUGUST, 1901**, inclusive, for the construction of a

Wooden Dam and Flume and Power House

in connection therewith at Renfrew, Ont., where plans and specifications for same can be seen and all information relating thereto obtained

THOS. A. LOW,

Secretary Renfrew Power Company, Limited.

DEBENTURES FOR SALE

Sealed tenders will be received by the undersigned up to 7 o'clock p.m. on the **1ST DAY OF SEPTEMBER, A.D. 1901**, for the purchase of local improvement debentures of the Village of Exeter, amounting to \$108 1/2, and bearing interest at the rate of 5 per cent. per annum. The debentures will be payable in 15 equal annual instalments. The amount payable on the debentures for principal and interest in the 15 years at the said rate, will be \$2333.80.

Dated at Exeter, this 16th day of August, 1901.

GEO. H. BISSETT,

Clerk, Exeter, Ont.

TO CONTRACTORS

Tenders will be received at the office of the undersigned or the office of Mr. Arthur Ellis, architect, Kingston, until noon **MONDAY, AUGUST 26TH** next, for the several works required in the erection of

Several Buildings for the School of Mining, Kingston.

Plans and specifications may be seen at the offices of the architects in Kingston or Toronto. The lowest or any tender not necessarily accepted.

SYMONS & RAU, Architects,
Toronto.

G. V. CHOWN,
Treasurer School of Mining,
Kingston, Ont.

CEMENT FOR REPAIRING OLD BUILDINGS.

Mr. J. Steiger, of Athens, gives the following formula for manufacturing a cement for old buildings: Heat, while stirring, a concentrated solution of magnesium chloride until it begins to thicken. When cool the concrete mass is finely crushed. The powder is mixed with calcined magnesia and acetate of lead or other pulverized lead salt. For use it is made into a paste with water.—*Vie Scientifique.*

DATE OF PUBLICATION.

Architects, engineers, municipal authorities and others are reminded that the **CONTRACT RECORD** is printed every Tuesday afternoon, and that advertisements should reach the office of publication not later than 2 o'clock p.m. on that day to ensure insertion in the issue of the current week. Advertisements are frequently received too late for insertion, to avoid which special attention is directed to this announcement.
