Drug Reports.

Canada.

Business is quite up to the average for this season of the year.

Citric acid, as we suggested last month, has taken a decided advance and is worth to-day sixty to sixty-five cents per lb. All the preparations into which this article enters will, of course, be advanced in proportion, notably at this season *true citrate* magnesia. We *italicize* these two words, as the probabilities are this article will be sold at old price, having been made from other acids than citric.

Tartaric acid in sympathy is exceedingly firm, tendency of the market being upward.

Opium stiffening up in price, outlook uncertain.

Ipecac root is exceedingly scarce, price is very firm at advance.

Quinine is unchanged.

Cinchonidia is much advanced.

No other changes of importance to note.

English Market Report.

LONDON, June 24th, 1899.

The phenomenal rise in ipecacuanha has at last stopped and this week shows a decline owing to large arrivals. Kino has dropped very quickly and the price is now much more reasonable, although still dear compared with two or three years ago. Hydrastis is scarce and dear, cascara firm, senna still dear for low quality. Opium is a trifle dearer and quinine a fraction firmer. Among chemicals, sulphate of ammonia and all ammonia salts are slightly advanced. Citric acid is at high price. Copper sulphate hard, so firm at recent rapid advances, yet much above the average price.

Aminoform is a synonym for usotropin, also known as formin.

CAFFEINE FROM KOLA NUTS.—L. Bernegau has succeeded in subliming pure caffeine from kola-nuts by carefully heating the freshly-sliced drug. This shows that caffeine exists in the drug in the free state. Bernegau considers Keller's assay process the best (*Ber. Deut. Ph. Gesell.*, 1898).

STROPHANTHIN FROM ALPINE ROSE.—

Dubigadoux and Durien have examined the milky juice which exudes from incisions made in the branches of the Algerian Alpine rose, and have isolated from it a bitter principle which by chemical and physiological tests they proved to be strophanthin.

Druggists

WILL find the Student's Imperial Dictionary the very best one for use in home or dispensary. It is reliable, up-to-date, and authoritative. No other dictionary can be obtained for less than three times its price which contains the latest information in all departments of study and investigation. It is the most satisfactory and most complete working dictionary yet printed.

Handsomely bound in half morocco Price, only \$4.50.
