FISHER.—OUR HARMONIOUS MASTERS.—TORRINGTON.

CHARLEY, "THE LINCOLN GIANT."
CHARLEY—Hello, little Premier; I'm bigger'n you!

The first corner in corn was when Joseph stored all the grain in Egypt.

A famous race-horse is named "Little Brown Jug." He is always full of spirit.

What's in a name? That which we call a flower by any other name would taste as good.

Travelling in Russia must be trying to one not versed in the measures of distance in that country.

A western editor engaged in a game of draw-poker with some of the political Solons of his village. By a lucky chance, during the course of the game he drew four aces. It happened, also, that all the others had good hands. The betting was lively, but at last it came to a "call." The editor had already chipped in his entire pile, and in the excitement of the moment, shouted: "I chip in my scissors and paste pot. What have you got?" There was no further parley. The players laid down their hands, and the editor scooped the pile.—*Boston Star.*

A woman's journal, in an article intended to be sarcastic on man, compares the giraffe very unfavorably to man, by saying that "the giraffe is the only animal, human or brute, that never utters a sound of rage, pain, or fright." Well, neither does a step-ladder. The writer of the above can marry a giraffe or a step-ladder if she likes them better than man. In less than a month she would give her giraffe for one side of a man with all his grumblings.—*Peck's Sun.*

ST. JACOBS OIL
TRADE MARK

SOLD BY ALL DRUGGISTS AND DEALERS IN MEDICINE.

A. VOGELER & CO.,

Baltimore, Md., U. S. A.

The Spirometer.

THE INTERNATIONAL THROAT AND LUNG INSTITUTE, 75 Yonge street, corner King and Toronto. A body of French and English physicians are in charge. Great reformation in medical science. The Spirometer, the wonderful invention of Dr. M. Souvielle, of Montreal, an ex-aide surgeon of the French army, which conveys medicinal properties direct to the seat of the disease, has proved in the leading hospitals of Europe to be indispensable for the cure of catarrh, catarrhal deafness, bronchitis, asthma, and lung disease. Dr. Souvielle and a body of English and French surgeons and physicians are in charge of this, the most scientific institution on this continent. We wish country practitioners who have not sufficient practice to distinguish the different forms of lung disease to bring their patients to our institute, and we will give them free advice. This institute has been organized by this body of scientific men to place Canada in a position to compete on scientific views with any part of Europe, and to protect the people from the hands of insignificant men. Dr. Souvielle's Spirometer and its preparations were invented after long and careful experiments in chemical analysis and use in hundreds of cases to prove its effects. He has the sole right in France, England, the United States and Canada. Last year over 1,000 letters of thanks were received from all parts of Europe, Canada and America for the wonderful cures performed by the Spirometer. Hundreds of the leading people of this country given as references. Write or call at the International Throat and Lung Institute, 75 Yonge street, corner of King, Toronto, and you will be received by either of the surgeons. Consultations free to physicians and sufferers. Call or write, inclosing stamp for pamphlet giving full particulars free.

KNOW THYSELF.
