WARE.

IN THE WATER. 

Russells' Chronometers, Russells' Quarter Hour and Minute Repeaters,

Russells' Chronographs or Fly-Backs, Russells' Independent

Split Seconds, Russells' Fine Keyless Levers, in short,

Russells' Watches for Perfection of Time-keeping

and Quality of Workmanship,

are not surpassed by the watches of any other manufacturer in England, the only country in which perfection, or the nearest approach to that point yet attained, in the art of Watch-work, was reached over a century ago, when £20,000 stg. was awarded by the Board of Longitude to the inventor of the Chronometer.

WATCH REPAIRING.

The advantage of getting watches repaired at **Russells'** is well known. The whole management of Russell's Canadian House is in the hands of Mr. Robert Cuthbert, **Practical Watchmaker** of many years' experience. Watches are repaired and Regulated to Observatory Time. Satisfaction guaranteed and **Charges Moderate**. Watches by Express from a distance for Repairs receive Prompt Attention.
