**DR. NEY'S ASTHMA SPECIFIC**

THE GREAT FRENCH REMEDY FOR

Asthma, Brouchitis, Catarrh, Croup, &c.

The successful experience of many years with numerous patients entitles Dr. NEY'S ASTHMA SPECIFIC to the public confidence. Numerous testimonials highly extol the merits of this remarkable preparation, but lack of space compels us to publish only a few lines of two of these testimonials. The Rev. Sister A. Boire, of the St. Boniface (Manitoba) General Hospital, says: "As regards Dr. Ney's Asthma Specific, I feel its value has not been overrated. If it does not always cure, IT NEVER FAILS TO GIVE RELIEF."

St. Boniface, June 8th 1890. SISTER A. BOIRE.

Dr. G. Desrosiers writes Nov. 12th 1890.

"I have used Dr. NEY'S ASTHMA SPECIFIC in several cases of Asthma with very good success. I had a particularly bad case of asthma recently. An old man of 72 years of age had been an inveterate asthmatic for the last 12 or 13 years. His sufferings were so severe that he apprehended suffocation. I made him inhale the fumes of Dr. NEY'S ASTHMA SPECIFIC and he immediately breathed freely. It is several weeks since this occurred and from what I know he has enjoyed an excellent health from that day. I cannot but congratulate myself upon having tried this most excellent preparation."
