Fell-Fab is a privately owned company, established in 1952, that has steadily grown to 200 employees. The company's modern, 5 574 m² (60 000 sq. ft.) plant is located on 1.2 ha (3 acres).

Fell-Fab has a complete range of manual and automatic cutting, sewing, welding and gluing equipment supported by a computer-aided design and manufacture system, a 93 m² (1 000 sq. ft.) clean room, and an engineering group. The company holds 12 patents for proprietary products, works to the quality assurance requirements of AQAP1,

AQAP4, FAA, DOT and most international airlines, and is cleared to NATO Secret.

Over 60 per cent of production is exported with the assistance of six agents in six countries and two joint venture subsidiaries in the UK. Fell-Fab received a 1988 federal government Award for Excellence in Entre-

preneurship and the 1988 Chamber of Commerce Award for Business Achievement.

Five- and 10-person cold weather tents with fire proof ring to accommodate a stove pipe.

Gill Ltd.

274 Jarvis Avenue
Winnipeg, Manitoba
Canada R2W 3A5

Fax: (204) 589-3883

Gill Ltd. is known across Canada as the dream merchant. Gill's sleeping bag division manufactures and supplies quality sleeping bags which are sold under the Intrepid label. Their complete line of sleeping bags is made from proven synthetics and pure goose down. The state-of-the-art synthetics used in Gill's sleeping bags include Dacron Hollofil II, Quallofil and other polyester fibres.

Gill supplies cold weather arctic sleeping bags to the Canadian government. They are engineered to exacting standards and specifications, and may be engineered to

special requirements on request. All Gill sleeping bags are designed to withstand a variety of weather conditions.
