

(g) conduct on-site drilling; and

(h) use radar imaging].]

45.2 [An aerial inspection may be carried out only with the permission of the inspected State Party, which shall have the right to deny access to such an inspection or to restrict its route or range.]

46. An Inspection Team conducting an inspection in an area not within any State's national jurisdiction may use any verification techniques which the Director-General deems appropriate.

47. The representatives of the inspected State Party shall have the right to observe all verification activities carried out by the inspection team.

48.1 The inspected State Party shall receive copies, [at its request,] of the information [and] [,] data [and samples] gathered at the inspected site.

[48.2 The inspected State Party shall have the right to limit the use of photo and video equipment beyond the inspected area.]

[48.3 The inspected State Party shall be reimbursed by the Organization in all expenses related to the stay and activity of an inspection team on the territory of the inspected State Party.]

49.1 Inspectors shall have the rights to request clarifications in connection with ambiguities that arise during an inspection. Such requests shall be made promptly through the representative of the inspected State Party. The representative of the inspected State Party shall provide the inspection team, during the inspection, with such clarification as may be necessary to remove the ambiguity.

[Overflights]

It has been suggested that an Overflights regime should be elaborated by a group of experts.

It has been suggested to consider an overflight regime for the implementation of Para 45.(a). Furthermore the use of commercially available aircraft could be considered. A view has also been expressed that an overflight regime should be negotiated on a case-by-case basis.

Collection, handling and analysis of samples

[50. [Subject to the provisions in paragraph ...] The inspection team may take [relevant] samples from the inspected area.]

[51. Where possible the analysis of samples shall be performed on-site. The inspection team shall have the right to perform on-site analysis of samples using approved equipment brought by it. At the request of the inspection team, the inspected State Party shall, in accordance with agreed procedures, provide assistance for the analysis of samples on-site.]
