Mr. Gregory Lekhtman
President

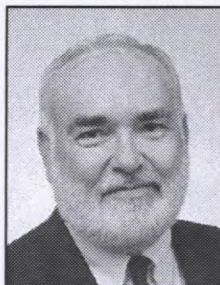

Key products/services:
 Medical and fitness electronics

Biosig Instruments, Inc. is a Canadian medical and fitness electronics company established in 1975.

Gregory Lekhtman, President and founder of the company, has 29 years experience in medical and fitness electronics. All of the products presented by Biosig were invented by Gregory Lekhtman, and have received numerous international invention awards, diplomas, and medals.

Biosig invented and introduced Insta-Pulse, a family of patented heart rate monitors, Tele-Pulse, radio telemetry heart rate and ECG monitors, Antache, an anti-headache device, Antense, an anti-tension device, and a variety of EMG monitors, Insta-Nerve, a patented device for diagnostics of carpal tunnel syndrome. A variety of fitness computers have been used by many prestigious international exercise equipment manufacturers.

Biosig is heavily involved in the research and development of new medical and fitness electronic devices. Biosig uses state of the art technology in the manufacturing of its products. Biosig designs its own hardware and software and continues to enhance its products to satisfy future market needs.

Mr. John Powles
Principal

Key products/services:
 Management consultancy

bizlinks.com is a management consultancy begun in 1998. It specializes in market entry business planning, advocacy and international trade and regulatory issues. The principal of the consultancy is John Powles, a veteran of trade and advocacy work with both the government and the private sector.

Born in Canada, Mr. Powles was brought up in Japan. In 1969, he began working for the Canadian government at Osaka's Expo '70.

Mr. Powles joined the Council of Forest Industries (COFI) in 1987 as the Manager of Asian operations based in Tokyo. He re-oriented the wood products' marketing program in Japan contributing to an increase in exports. In 1994, he was the first non-Japanese to receive the (Japanese) Minister of Construction award for contributions to the betterment of Japanese housing. In 1995 he returned to Vancouver as Vice President of Markets/Trade for COFI, a position held until late-1998. He is the president of the Canada-Japan Society of British Columbia.
