When it comes to a description of our Top Coats, we feel just like the kiddie who has used up all his joy words and expresses the rest of his feelings by dancing. From \$15.00 to \$25.00 we are in the position that a gentleman told us we were the other day. He had been into our store first, and then went out to look around. Coming back later on, he told our Overcoat Man that we put it all over the other houses like a tent when it came to styles and values. That, of course, was only his way of expressing himself, but when a man comes back after looking about in a town of this size, & means that our coats must be right, and they ARE.
