# Sister Clementia

By FREDERICK H. LAW.

12mo; cloth.

\$1.50.

"Sister Clementia" is a story of deep, passionate and lasting love. Like Hawthorne's "Scarlet Letter," it is also a story of sin and

its consequence. The heroine, who is the central figure throughout, is young, sweet womanly, passionate impulsive and thoroughly charming—a character that one loves from the first, and whom the reader will not forget when he has read the book.

Having become involved in an unusual situation, she is seen struggling between two ideals of duty. Impulsive and always ready to sacrifice herself for others, she entangles herself in a series of striking events, with such unexpected terminations that the reader is interested from page to page. The story tells how she takes the failure of her life, repairs its wrong, and at last succeeds in finding a well-deserved happiness.
