All Aches and PainsA quick, clean,  
comforting relief

## What Thermogene is—

A light, dry, fleecy, medicated wool that has supplanted the old-style messy, uncomfortable poultice and plaster.

## What Thermogene does—

It actually generates heat the instant it is applied to an afflicted part. It acts upon the blood vessels through the skin and directly attacks the trouble at its source—dispelling all soreness and inflammation.

## When to use Thermogene—

The moment you feel chill or cold striking through your system—apply Thermogene to arrest its development. Don't wait!

## How to buy it—

Your nearest drug store has Thermogene in handy boxes—all ready to apply—full directions enclosed.

Invented by Vandenbroeck, the famous Belgian chemist. British-made by The Thermogene Company, Limited, Hayward's Heath, England.

JANUARY 25 IS  
OPENING DAY OF  
ONTARIO HOUSERaney Promises To Have  
Estimates and Accounts  
Ready For Action.

TORONTO, Dec. 7.—Attorney-General W. E. Raney announced today that the second session of the Ontario Legislature under the Farmer-Labor regime would open on Tuesday, January 25.

The attorney-general stated that when the House met the Government's legislative program, estimates and accounts would be in such shape that little time would be lost in getting on with the business of the session. This will be the earliest opening of the Legislature in many years. Usually it is late in February when the House opens. Mr. Raney said today that he thought the session would not be a lengthy one.

The Drury Government will be on the offensive in the coming session. Last spring it was brand-new, and had the sympathy of both of the old party representatives in the Legislature, more or less. Besides, the Government had no past. It may be different at the 1921 session.

CANADIAN FUNDS  
SHOW WEAKNESS  
IN NEW YORKDrop Down To 86.25, Close To  
Low Record of Last  
February.

NEW YORK, Dec. 8.—(By Canadian Press.)—Canadian funds at New York were unsettled and weak today, selling down to 86.25, approaching the low record of 85.50 in February last.

Bankers interested in the flow of funds and credits across the border say that nothing specific has happened to force the unfavorable quotation on Canada and explain that the movement is both natural and reasonable, with the usual year-end balances.

It is expected that the rate will not right itself very soon, although there is the chance that some changes may be effected after the first of the year. It is expected here that the Dominion Government will take steps to lift the unofficial embargo on sales of Canadian securities in the Dominion by foreign owners within a few weeks.

BRITISH EMBARGO ON CANADIAN  
CATTLE SUBJECT OF PROTEST

Rank Injustice Is View Expressed by Minister of Agriculture, Premier Drury and Others At Guelph Winter Fair—British Markets Are of Supreme Importance To Canadian Farmers.

[By Staff Reporter.]  
Guelph, Dec. 7.—"It's about time the British Government was told just where it got off in the matter of trade regulations," said Hon. Duncan Ross, minister of agriculture for Ontario, addressing the civic luncheon of the city of Guelph to the Ontario Winter Fair officials, exhibitors and guests in the Rotary Club dining hall today.

"A strong resolution should be passed at the next session of the Dominion Parliament demanding, not requesting the removal of the embargo on Canadian cattle," he said.

Premier Drury and Hon. Manning Doherty, who were other speakers, emphasized the importance of using every possible effort to have the British embargo removed.

Premier Drury in speaking of the Ontario department of agriculture had referred to the selection of Hon. Manning Doherty as minister and used the words, "a little fellow."

Mr. Marshall, his address after a reference to Hon. Manning Doherty's visit to England declared: "Let Great Britain know that when she's dealing with this kid out in Canada, she's dealing with somebody whose wits have been as sharp as a razor since she has done in the past, that she won't be humbugged any more."

"I know of nothing so important to the Canadian farmer, not only now, but for the future, as the free entry of his cattle into Great Britain," he said. "Canadians have not had fair treatment from Britain in trade matters. Great Britain is the cleverest and shrewdest country in the world in fiscal matters, and she has been putting it all over us for a long time. The more choice of markets you have, the better off you are."

He read from a Scottish paper an article showing that many British breeders are anxious to import Canadian livestock.

"It is no longer contended by British statesmen," the speaker, "that Canadian livestock is any more likely to be diseased than other livestock. But the embargo still stands."

Recognizing, but not influenced into changing his stand by the arguments of imperial sentiment, Lord Leigh, according to the Scottish paper, had told the Scottish livestockmen that it would not do to gratify Western Canada sentiment and thereby risk an injury to the British farmer.

Praises Poultry.  
Mr. Marshall paid a special tribute to the poultry department of the Ontario Winter Fair, which he believed to be the best annual poultry show on the North American Continent. The humble hen was going to be more important as a farm revenue producer, a Kansas farmer, whom he mentioned in Chicago, told of "ling 40 bushels of corn for \$15, and a dozen eggs for \$2. It would be worth figuring out, said Mr. Marshall, how long 30 hens could be fed on 40 bushels of corn, and how long it would take to raise 30 dozen eggs. Better training and better education for the boys and girls who are going to farm, was needed, the farmer is the man who gets his first. He gets his training from his father, Marshall. Some time ago he had Duncan Ross a new hat that there would be a federal election in the year 1921, the bunch at Ottawa would have joined

MARION DE KOL  
FROM NORWICH  
WINS MILK TESTSplendid Holstein Carries Off  
Grand Honors At the  
Guelph Fair.

[By Staff Reporter.]  
GUELPH, Dec. 7.—Today's attendance at the winter fair was out of all proportion to the opening days and the directors and all interested in the fair are satisfied that new attendance records will be made this year. The arrival of today's crowd emphasized the great need of larger buildings, when exhibitors, prize stock and visitors flocked each other in a general melange from early this morning until late this evening.

Percheron stallions and Hereford cows shared the honors in the judging ring, the quality in both classes being of the highest. For the championship honors in the Hereford class Ontario was represented by the champion Hereford bull, Marion De Kol, owned by Drury and Perfection Lass 12th, the former owned by Drury and the latter by L. O. Clifford of Ottawa.

"The entire showing of the Hereford classes is as good as I have ever seen inside a show ring," was the comment of the judge, John Wilson of Innisfail, Alta.

The standard bred horses were judged this evening, and the competition was keen, with many splendid entries. Scores of red-bellied sheep and hogs were slaughtered today in accordance with the usual custom, paying the exhibitors for their prize winning at the fair. Following the killing, long rows of carcasses are awaiting the decision of the judges, who will select the best of the lot as dead meat, and then they will be put up at auction. Large crowds were attracted by the slaughtering of the pigs, and although the massacre was conducted with as little publicity as possible, many persons, including a number of women, took advantage of all possible vantage points to witness the execution.

Milking Tests.  
Probably the most interesting feature of the fair today was the announcement of the awards in the three-day milking tests for the dairy cows. Marion De Kol, a splendid Holstein, carried off the grand honors in the competition, in addition to leading the Holsteins, which there were eleven animals entered, all of which made fine records.

Lily of the Valley, bred by John Richardson, Crosshill, and exhibited by A. Stevenson, Listowel, led the dairy Shorthorns in the milking test, scoring a total of 155.13 points, giving 13.5 pounds of milk and 4.785 pounds of butter fat.

From Norwich.  
Of course, Lily of the Valley could not be expected to win the prize for achievement of Marion De Kol, the Holstein, early leader of all dairy breeds in the milking test. The prize was won by D. Burt of St. George and exhibited by A. E. Hulet of Norwich; she scored 154.79 points, giving 13.5 pounds of milk and 4.785 pounds of butter fat.

Daisy Seis Pietrie, exhibited by J. J. Fox, Guelph, total points, 255.70; pounds of milk, 278.4; pounds of butter fat, 7.42.

Cornish Lodge Margaret Mercedes, exhibited by J. J. Fox, Guelph, total points, 252.77; pounds of milk, 252.77; pounds of butter fat, 7.498 pounds.

Lumber up! Get a small trial bottle of old, honest "St. Jacobs Oil" at any drug store, and in just a moment you'll be free from rheumatism pain, soreness, stiffness and swelling. Don't suffer! Relief awaits you. "St. Jacobs Oil" has cured millions of rheumatism sufferers in the last half century, and is just as good for sciatica, neuritis, lumbago, backache, sprains.

the suicide club, as they ought to have done long ago, but he lost the bet, and Duncan Ross sent him a bill for \$5.40. He sent two cowboys, a calfman, and two sheepmen to the market, and sold them to pay for the bet, but was still shy of the amount by \$1.51. He ought to have bet cowboys, cowboys, cowboys, with sheepskin, with Duncan Ross, and had written him to that effect.

"There are serious days for the Ontario farmer," said Mr. Marshall. "It costs me several dollars a day to pay for my dinner at a Toronto hotel the other day."

Hon. Manning Doherty spoke briefly of his experience with the Winter Fair. This year's exhibition was the best yet held. He believed it was the best livestock show ever held in the province. Premier Drury, speaking of the livestock industry of the province, expressed the hope that great good would come from the visit of Hon. Manning Doherty to England in an effort to secure the removal of the embargo on Canadian cattle, and the matter of getting Canadian fruit to England under better conditions.

"It seems to me an unspeakable thing," he said, "that there should be an embargo on Canadian cattle going to England."

There was not much use of attacking this question through diplomatic representation to the bureaucracy of the British Government, in his opinion. The Ontario Government was trying other means. There were more ways of attacking the matter than by a cat and a dog, he said. The Ontario Government was prepared to take the matter of shipping Canadian fruits right through to the consumer in the British market, he announced in regard to the Canadian fruit trade.

Arouse the People.  
He believed it would be possible to arouse the British people to a sense of the injustice of a cattle embargo. It might be desirable that Mr. Doherty should go to England again, and perhaps desirable that he should accompany the minister of agriculture to England next time.

Other problems to be solved in Ontario, the premier, were the betterment of rural social conditions, to make rural living more attractive, and means for teaching the rudiments of agriculture to young people who could not come to Guelph.

Ald. Frank Howard presided, and other speakers were: Mayor Westoby, John Gardhouse, president of the Winthrop Fair Association, and Samuel Carter, ex-M.L.A. J. D. MacArthur contributed a clever song, parodying a cat and a dog, in connection with the fair there was held this afternoon the annual meeting of the Ontario Seed Growers' Association. Officers were elected as follows:

Honorary president, Professor W. J. Squire, Guelph; president, R. R. Moore, Norwich; vice-president, B. R. Coho, Woodville; secretary-treasurer, F. C. Hart, Parliament Buildings, Toronto; directors, wheat, F. A. Smith, Aylmer; oats, B. Coho, Woodville; barley, H. L. Gots, Bardsville; corn, A. S. Campbell, Blenheim; peas, J. S. Madam Vale Abbecker, owned by A. E. Hulet; total points, 151; milk, 129.35 pounds; butterfat, 5.913 pounds.

Queen of Jerseys.  
The queen of the Jerseys was Hawthorn Beauty, owned by E. Dunnett of Scotland, Ont.; total points 202.5; milk, 140 pounds; butterfat, 5.502 pounds.

Edgely Fairy Lass, owned by Alfred B. Edgely, followed with 184.63 points; milk, 124.4 pounds; butterfat, 5.818 pounds.

Property of James Bagge & Sons, Edgely, claimed third place among the Jerseys. She scored 144.37 points; gave 117 pounds of milk and 4.434 pounds of butterfat.

Keen competition was evident in the sheep and swine classes judged today. In Cotswoils, the Ontario Sheepbreeders' cup went to G. H. Mark & Son of Little Britain for the best pen of one ram and two ewes.

Won Special Prize.  
J. H. Patrick, of St. Ilderton won the special prize for the champion Lincoln ewe.

The champion Leicester ewe was exhibited by A. W. Whitlow of Guelph.

The champion Oxford ewe was exhibited by Fred T. Lee of Simcoe.

A cup for the best pen of Shropshires was won by J. D. Lakin of Queenston. F. W. Gurney of Ithaca exhibited the champion Shropshire ewe.

The special award for the champion Hampshire ewe was won by Teller Bros. of Paris.

The champion Suffolk ewe was entered by George Henderson, Guelph.

The champion wether, Tom, was exhibited by J. R. Kealey, Woodville.

The  
Trying  
Days

It has been well said, a school teacher has more influence in shaping the lives of her scholars than their parents.

How necessary, then, is it that she should have a bright, clear brain, and be strong and vigorous in order that she may give them of her best.

The worry and the work, the strain and anxiety of a teacher's life are such as tell severely on the nervous system. Time and again teachers have had to give up good positions on account of a weak heart, run down health and shattered nerves.

To such Milburn's Heart and Nerve Pills come as a boon and a blessing.

Their purpose is to make the weak heart strong and the shaky nerves firm, and thus build up the entire system to full strength and vitality.

Miss L. E. Hopkins, Kirkton, Ont., writes:—"I have used Milburn's Heart and Nerve Pills for weak heart. I was so nervous I had to leave school for two years. After I had taken five boxes of the pills I was able to go back to my school again, feeling in good health."

Milburn's Heart and Nerve Pills are 50c. a box at all dealers, or mailed direct on receipt of price by
