Terence Mulvaney and his friends can never lose us. But did Mr. Kipling ever write any poetry? The "Recessional" is the cheapest semi-religious patriotic commonplace. The "Barrack Room Ballads," "Department Ditties," are mighty fine in their own way, but they are only excellent good music hall warbles. As for the so much admired celebrations of machinery, they are mighty clever; but they lack the passion, the beauty, the supreme form of poetry, fit so to be called. In vain does that quivering mound of paradoxes and of sentimentalities, Mr. Gilbert Keith Chesterton, invite us to consider the poetry of letter boxes and fire glarms, and tell us, as Mr. Chas.
