one good breakfast. It is certain that all the large stores of grain not already moved to Galatz, have been burned by the retreating Roumanians. The country is also being stripped bare, as indicated

According to an Exchange Telegraph despatch from Copenhagen, the German press correspondents in Roumania report that the Roumanians have destroyed the railway from Cernavoda to Bucharest, and they are burning all the villages and stores of food in the course of their retreat. The alarmist section of the London critics is inclined to give up everything as lost, and to make great effort to find a scapegoat. Roumanian military and political circles in London, on the contrary, continue to display confidence in the favorable outcome of the invasion, for the allies. These circles warmly repudiate the suggestion that Russia has not given all possible aid, and they are convinced that it will not be long until the great efforts of Russia will produce the desired results. A despatch allowed to be sent out from Russian headquarters says that Gen. Brusiloff has changed about his front from west to south in order to assist Roumania. When she entered the war he was facing towards Kovel assist Roumania. When she entered the war he was facing towards Kovel and Lemberg, and he was about to launch a further drive westward when Roumania called for help. So he wheeled about his army so as to make it face southwestward. In the face of an enterprising enemy, this task was a lengthy one, but is now completed. Russian troops have taken over the defence of the Carpathian lines in Moldavia, so as to release the Roumanian troops allotted to this front for service against the danger that is threatening the Roumanian lines from the west.

\* WAR SUMMARY \*

THE DAY'S EVENTS REVIEWED (Continued From Page 1.)

It will be thus seen from the new disposition of the armies of Gen. Bruslioff that they are facing the southwest as if preparing for an advance up the northern bank of the Danube. The Roumanian retirement is in order to gain time and to prevent disaster until Brusiloff is able to march. The advance up the Danube will be into Bosnia and Herzegovina, and it will probably link up with the Italians in their coming march across Dalmatia to wards the Danube.

While the Germans and their confederates are proceeding with the invasion of Roumania, the allies are proceeding with the invasion of Serbia and, ultimately, of Bulgaria, German reinforcements sent to the new front and, ultimately, of Bulgaria. German reinforcements sent to the new front occupied by the enemy, north of Monastir, are unable to check the advance of the allies. The Serbians, who are still holding the post of honor at the head of the advancing allied columns, have again advanced several hundred yards at several points. In other words, they are making good progress in breaking thru the hostile line of entrenchments. If they keep on at this rate they, will soon be entirely thru and the enemy will be compelled to retreat another five or six miles. Hill 1050, which the French and the Serbians took on Sunday, was fiercely assailed four times by the enemy but the allies reanother five or six miles. Hill 1050, which the French and the Serbians took on Sunday, was fiercely assailed four times by the enemy, but the allies repulsed all the assaults and they still hold the position. German official reports about repulsing general attacks by the allies in this region can have little credence placed in them. They are given out to keep down apprehension in

British aviators brought down and destroyed two of the German zeppelin airships engaged in a raid over England on Monday night. It has been two months since any previous raid was attempted and the latest losses bring the total number of zeppelins destroyed in these endeavors to seven in England and six in other spheres of operations this year. About 100 bombs were discovered and one woman was killed and sixteen persons were injured. The and six in other spheres of operations this year. "Do I favor taking joint action with the C.P.R. in the building of the bridge?" asked Walter W. Dundas, a prominent business man in Deer Park. "You'll have a job to find anybody who does not."

"It was be an enormous advantage to the city at large, but more especially to all those doing business in the northern part," said Alfred Gibb of Gibb Bros., and a prominent member of the North End Merchanta Association. "The project has been discussed for years, and this is the chance to get it thru when the C.P.R. are putting in the new bridge."

"I am absolutely in favor of the scheme to double-deck the new C.P.R. bridge, because I can see no other solution to the Mount Pleasant civic car line service. It is the only logical route, and the council cannot do otherwise than go ahead and keep their word with the citizens," said J. M. Skelton.

"Our association in North Toronto has gone on record as favoring the project, and personally I would be willing to attend the suggested joint meeting of the other associations in the northern part of the city, to still further discuss it, and in the meantime I am going to make a thoro personal inspection of the whole district for my own satisfaction," declared R. L. Baker, the energetic president of the North Toronto Association.

Jerry Nelson, president of the Moore Park Ratepayers' Association, told The World last night that he had issued a call for a mass meeting of the Moore Park Ratepayers' Association, told The World last night that he had issued a call for Friday night at eight o'clock, and that all the other neighboring associations were invited to attend. The idea is to give the whole matter a fair and impartial discussion, and present an unbroken front to the city council, and this action is expected to have a determining influence on the city representatives. n Pricefield road, leading on to Rox-porough street, along the side of the ra-

Lloyd George

The Right Hon. David Lloyd George, speaking on "The Lesson of Sacrifice," said:---

"We have been living in a sheltered valley for generations. We have been too comfortable and too indulgent, many perhaps too selfish. But the stern hand of fate has scourged us to an elevation where we can see the everlasting things that matter for a Nation, the great peaks we had forgotten --- of Honour, Duty, Patriotism, and clad in glittering white, the towering pinnacle of Sacrifice, pointing like a rugged finger to Heaven."

Compared to service in the trenches, Service in the Munitions Plant is the lesser sacrifice, but it is hardly less vital to the Empire.

The Toronto Suburban Railway Company has the work well under way in the changing of the rails to a standard rall-road gauge; at the same time, new rails are being laid on all lines. The Davenport line has been completed as far as the power house on St. Clair avenue, from which point a stub line is being run to Keele and Dundas streets, there being two cars in operation out that portion between Bathurst street and Weston road. At present the men are working on the Lambton and Crescent troutes, laying a single rail direct. While this change is being made, the cars are being operated between various points to save the passengers inconvenience. All lines will be made standard gauge; similar to the Guelph line, as the company intends running express cars from point to point.

York County Council Ratifies Appointment of Magistrate

The York County Council yesterday unanimously ratified the appointment of W. H. Clay as a country police magistrate, at a minimum salary, instead of by the fee system, as hitherto. This action on the part of the country council is in keeping with the policy adopted a year ago in the abolition of the fee system as applied to country constables.

There was a good deal of criticism over the action of the provincial government in the appointment of Douglas Davison of Mimico as successor to the late George Syme, and in direct opposition to the wishes of council. A year ago council instructed the government not to appoint a successor. A tribute was paid to the good work of Major Brunton.

R. C. Jennings was reappointed auditor at a salary of \$125.

"I was more than pleased to receive your welcome parcel. The contents were, indeed, very acceptable. You can hardly know how we appreciate the efforts of the women of Canada in making and sending comforts to the boys out here. We hope our own efforts will be crowned with success, and that we will soon be able to return to our homes in Canada." It was decided to prepare and forward another consignment of comforts as soon as possible.

Secretary Mrs. Lee was instructed to thank motor car owners who recently conveyed the soldiers to and from the Convalescent Homes, and the storekeepers for their generous contributions.
