

EVENTS OF THE WEEK IN CARTOON

HOW ABOUT THEM?

WITH AN OVERWHELMING MAJORITY

POLLING DAY

ANTICIPATION

SIR JOHN S. WILLISON

PORTUGAL THROBS
WITH REVOLUTION
SOCIALISTS BUSY

Situation Is Becoming Worse
and More Threatening—
Ominous Rumors
Current.

SECRET SOCIETIES BUSY

Thirty Thousand Armed Men
Ready to Strike Against
Government and Form
of Dictatorship.

LISBON, Portugal, Jan. 4.—The political situation in Portugal daily becomes worse and more threatening. Rumors are current every night that one side or the other intends to overturn the government and to force either the proclamation of a dictatorship or the appointment of a provisional cabinet.

The secret society of the Carbineros is increasing in strength. It now numbers thirty thousand members, virtually all of whom are socialists. As the adherents of the two factions formed by the Democrats on one side and the Conservatives groups, composed of the Evolutionists, the Unionists and the Independents, on the other, are fully armed with automatic rifles, pistols and stores of bombs, there is imminent danger of a collision.

The Democrats, led by Dr. Alfonso

Costa, refuse to join a coalition government. As the Democrats number about half of the deputies and senators, the Conservatives do not possess a working majority in either house.

The Portuguese constitution does not permit of a dissolution of parliament, and the president of the republic is seeking to allay the intense personal rivalries existing among the politicians and thus to bring about a solution of the present difficulties.

TWO PLANTERS
WERE KILLED
IN NEW GUINEA

A Punitive Expedition Has Been
Planned by Australian Govern-
ment to Find Out Murderers

SYDNEY, Australia, Jan. 4.—Butchered by natives in New Guinea was the fate of two planters named James and Hermann Weber, brothers. They were set upon by cannibals, who came from the unexplored regions. No trace of their bodies has been found and it is believed that they were devoured. The news was brought here today by friendly natives, who stated that the same tribe has been carrying on a campaign of butchery throughout the district.

A punitive expedition has been planned by the government.

Papians, the name given the black inhabitants of New Guinea, a British possession, under the rule of the Australian Commonwealth, are supposed to be amenable to discipline, but occasionally an outbreak of cannibalism occurs and whites are slaughtered. The more civilized Papians have a wholesome dread of the British law.

THREE MEN DEAD
IN PERTH CAMP

While Loading a Drilling With
Dynamite It Exploded—In-
quest Held Later.

PERTH, Ont., Jan. 4.—Murdock's construction camp, on the new C. P. R. lake line from Ottawa to Belleville, near Christie's Lake, was the scene of an accident which resulted in the death of three workmen. It occurred about 2 o'clock yesterday morning. They were in the act of loading a hole when it exploded, killing an Englishman named Court instantly, and seriously injured three others, two of whom died after the doctors arrived. They were both Scotchmen, one Alex. McTavish, whose only relative is a sister in Auckland, New Zealand, while the other, Alex. Morrison, lived in Forrester's Falls, Ont., and leaves a wife and family. The fourth was still living after the doctors left last night, although he had a serious injury to his spine. An inquest is to be held today.

GODERICH-TORONTO
TRAIN DERAILED

C. P. R. Morning Train Was Part-
ially Wrecked at Meneset Sta-
tion Yesterday Morning.

LONDON, Ont., Jan. 4.—The C.P.R. morning train out of Goderich for Toronto was wrecked at Meneset Station this morning at 6:30. The engine, tender, baggage car and passenger coach left the rails but remained upright, the cars miraculously escaping rolling down a steep embankment. The passengers received a severe shaking up, but no serious injuries. The accident is thought to have been caused by sunken rails.

Storm Ties Up Brokers.

Owing to the storm that raged
along the Atlantic Coast on Sat-
urday Toronto was without
steady wire connection with New
York. The brokers were practi-
cally tied up.

OPTION CONTESTS
STIRRING ONTARIO

Eighty Municipalities Will
Vote on Monday and Many
Bars Are Trembling
in the Balance.

"To drink or not to drink?" is a question which will have to be answered on Monday by the voters of 80 municipalities in the Province of Ontario. In all 27 bars are trembling, and according to Hon. Benjamin Spence, secretary of the Dominion Alliance, the result of the campaign is going to be the biggest temperance victory that the Alliance has ever gained. The joyful news of the vote will be received at the offices of the Alliance, 7 West Queen street, on Monday evening.

While the campaign is not as large in extent as the one three years ago, it is by far the hottest we have ever pushed.

Said Mr. Spence to The Sunday World on Saturday evening: "We've got the campaign going right," he continued, "and I think we will give them the liquor men presumably a good trimming on Monday. On Sunday we will have 150 meetings, and besides these there are many places making their own arrangements."

A number of big guns of the city will be out on the temperance stump today. Controller McCarthy will give an address in St. Thomas, where a fierce reduction campaign is being waged; James Simpson, defeated candidate for controller, and Mayor Frost of Orillia will speak in Peterborough, where local options is the question and 24 bars are at stake. Ex-controller F. S. Spence and Canon R. W. B. Spence, of St. James, will speak in Hamilton. It is voting on reduction and Joseph Gibson, president of the Alliance, will be master of ceremonies there.

Other speakers with the places where they will speak are as follows: F. C. Miller, Lindsay; Aubrey Davis, Orangeville; M. F. Caswell, Kitchener; D. A. McDermid, Bayfield; R. H. Hanson, Galt; Dr. Abraham, Chatham; New Ontario; Rev. Kettler; Dr. McTavish, Ottawa; F. W. Duggan, Almonte; Rev. John Mulp, Ingersoll; Rev. John Bailey, Simcoe Township; and Rev. D. McGee, Bruce Peninsula, and Rev. Benjamin Spence, Peterboro.

Particular interest centres in the contest in Owen Sound, where for the third time the liquor men are trying to repeal local option.

In Peterboro the fight is exceedingly strenuous, both sides being determined to win. The contest in North Bay is of great importance, owing to the strategic position occupied by that town as the gateway to New Ontario.

A feature of the campaign has been the large number of business men from local option towns who have volunteered their services for platform work. The temperance people claim that these men have created a good impression.

Dynamitards' Bonds
From Indiana Only?

Judge Anderson Possesses Wide Discretion as to Surety.

INDIANAPOLIS, Jan. 4.—Government officials conferred today concerning the expected results of the action in Chicago of the United States Circuit Court of Appeals in granting rights to bonds to 32 of the labor union officials now confined in the federal prison at Leavenworth, Kansas, for complicity in the dynamite plots. District Attorney Miller returned from Chicago and talked with Federal Judge Anderson, by whom the bonds must be approved.

It was stated a wide discretion rests with Judge Anderson as to the kind of bonds, although the amounts have been fixed by the higher court. The judge may require bonds from residents of the district of Indiana and insist that where real estate is the surety, the value of the property in each case shall be twice as high as the bonds.

The court already stated during the trial that indemnified bonds, or bonds in which the bondsmen are secured against loss, are not acceptable. It was declared that if the judge insists upon the limitation he set out in the ruling, the attorneys for the convicted men will be confined to Indiana in their search for bondsmen.

William N. Harding, one of the attorneys for the men, returned from Chicago today to begin at once before Judge Anderson action looking toward the release of the prisoners. As soon as the bonds are granted here attaches of the United States marshal's office will be sent to Leavenworth to bring the prisoners back to Indianapolis in custody for their later release.

Since the establishment of the Chinese Republic the telephone is rapidly being introduced. Thus, in Peking, the government has built an exchange which already has 600 subscribers, 2000 of whom are native residents of the Chinese and Tartar sections of the city.

IMPORTANT COURT
DECISION AWAITED

Should Owner Be Held Responsible
for Accident Caused
by His Chauffeur?

A question of great interest to motor car owners is being threshed out in Judge Denton's court. Is the owner of an automobile responsible for an accident caused by his auto when the car is being used without his knowledge or consent?

Issy Bernstein is of the opinion that the owner is responsible, and accordingly brought action against J. C. Lynch, a retired merchant, by whose car he was injured on August 29 while riding along Wellington street.

At the time of the accident Lynch's chauffeur was using the car for his own purpose without the knowledge of his employer.

The verdict is being waited for with great interest by the auto owners of the city.

BEATTIE NESBITT
A VERY SICK MAN

Ex-President of Farmers' Bank
Will Go to Court in an
Ambulance.

It is quite possible that next week Dr. Beattie Nesbitt will go to and from court in an ambulance. He is very anxious with the case should be proceeded with, as he feels confident that he will be exonerated of all guilt in the charges which are brought against him.

The doctors are of the opinion that it would be a good thing for Dr. Nesbitt if the trial were proceeded with at once, as he is worrying so much about the case.

He has fallen rapidly since he was not allowed to plead in court a few weeks ago, and the doctors think that if the case were over his recovery would be more rapid.

Making Gold Soft.
Pure gold can be softened by heating it for four days at the boiling point of water. At higher temperature it softens much more rapidly, taking but a few seconds at 400 deg. F. It takes much longer to soften alloys, however, and since gold and silver coins are not pure metals, it takes considerable period for the softening. It requires 575 deg. F. for a period of sixteen days to soften gold coins.

G. T. Somers Praises
Transcontinental Ry.

Congratulations to Pres. Chamber-
lin on Passage of First Grain
Train Over the G. T. P.

The following congratulatory telegram was sent Saturday morning to President Chamberlin of the Grand Trunk Railway at Montreal by President Somers of the Toronto Board of Trade. It refers to the transcontinental wheat train that passed thru Toronto yesterday.

"The congratulations of the Toronto Board of Trade are heartily extended to you on the movement of your first train of wheat and its product from western Canada, to the Atlantic seaboard. It is especially noteworthy that such a train will proceed entirely thru Canadian territory, and that it consists of a food product destined to a journey within the British empire."

City Hall Directory.
Citizens who occasionally find it necessary to visit the city hall and have become lost in the numerous corridors will appreciate the new directory which is being put up in the rotunda. It is to cost \$25 and will be well worth the money. It is made of quarter-cut oak and has two pillars, one on each side, surmounted by large globe lights. Smaller directories of the same style will be placed at the different entrances.

Bishop Knows Nothing.
REGINA, Sask., Jan. 4.—Bishop Matheson today, with reference to a dispatch from Montreal mentioning him as bishop conductor of Quebec, said he knew nothing of the matter. Further, in view of his comparatively recent elevation to the bishopric of Regina, he considered it quite unlikely there was any justification for the report from Montreal.

Injured Trainmen Dead.
QUILP, Ont., Jan. 4.—J. Allan, a C.P.R. trainman, whose home is in Allandale, died in Guelph Hospital at midnight. He was injured near Acton, one leg being amputated and the other broken in four places.

Mayor Back on Monday.
Mayor Hocken is expected to return to the city from St. Catharines in time for the final meeting of the old city council on Monday afternoon.

POLICE HELD BACK
WITH EXPLOSIVES.
KILLS CONSTABLE

Would-Be Burglar Holds Up
Police Station Staff With
Nitro-Glycerine and
Pistol.

OFFICER GILLEN DEAD

Sheriff Was Awakened by
Succession of Explosions in
Rear of Buildings—
Officers Injured.

CEDAR RAPIDS, Ia., Jan. 4.—With a bottle of nitro-glycerine in one hand and a pistol in the other, Harry Lee charged with burglary, held a squad of officers at bay in the county jail at Marlon, six miles from here, for nearly an hour, early today. Then he turned loose with his pistol and officer Charles Gillin, of Cedar Rapids, fell dead, and Detective John Cook was injured.

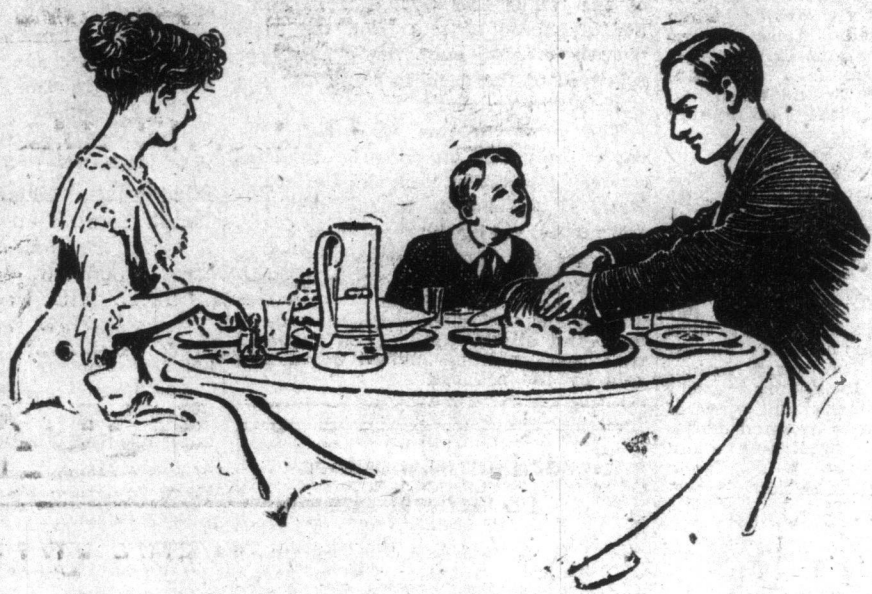

The fight between Lee and the officers followed an attempted jail delivery, in which there were two explosions in rapid succession. Outside friends had endeavored to set Lee free. They cut all means of communication.

Sheriff Loftus was awakened about 2 o'clock by an explosion in the rear of the jail. Before he could draw a second explosion took place. He then discovered that the telephone wire had been cut, but finally got into communication with the police department and a squad of six officers went to the scene.

After Gillin was killed, the other officers rushed Lee and overpowered him.

The other prisoners in the jail were panic stricken and none attempted to escape. They were brought to Cedar Rapids for safe-keeping. Sheriff Loftus is searching for the men who attempted to liberate Lee.

A DAY IN THE LIFE OF A BOY

SUPPER WITH DADDY

"Daddy, did you have Lawrence's Bread to eat when you were a little boy?" "No; when I was a boy we ate the bread that mother used to make. It had hard crusts and was heavy in the middle. It often gave us indigestion. We did not eat as much bread in a day then as we eat at one meal now since we buy from Lawrence's Bakery." "It never gives me indigestion," says Bouncer, "and I eat it five or six times a day; dry, buttered, toasted, and in milk. It's the best bread ever made in this world, I believe." "A great many ladies have said the same to me," said Bouncer's mother.

MOST EVERYBODY USES IT.

Lawrence's Home-made Bread

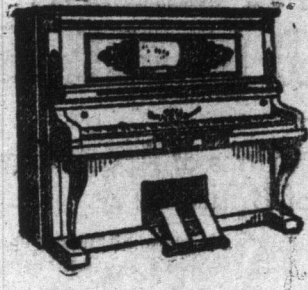

24-Ounce Loaf—Only 5c—Delivered Fresh Daily

You will never know what almost perfect bread is like until you have tried Lawrence's. Order by Telephone, "College 321," and a fresh loaf will come on the next delivery.

GEO. LAWRENCE, BAKER,
TORONTO.

Bell
Player-Pianos

"The Ideal Family Purchase"

In five minutes after a Bell Player-
Piano enters your home you can play
"The Last Rose of Summer" or any
of your favorite melodies.

Features

Living tone and the lightest playing pedals of any player-piano made—absolute simplicity and ease of operation, a child or anyone devoid of musical tuition can play it in five minutes. Perfect construction, it will not get out of order.

Free From

Useless "Expression devices" that hamper the bellows system and hinder artistic expression—unnecessary elaboration that is detrimental to wearing power of piano—"cumbersome attachments," for simplicity, in Play-ers, is efficiency.

Bell Piano and Music Warerooms
