

EARLY TRADING LIGHT; PRICE CHANGES SMALL

Asbestos and National Brew-
eries Are Most Active
in Montreal

MOVEMENTS UNEVEN
IN WALL ST. TODAY

General Railways and Sugar
Gain—American Can and
Pan-American Lower

MONTREAL, June 15.—Trading was light at the opening of today's stock market, and no price changes of importance were registered during the first 15 minutes. Asbestos common was the least inactive issue, but sold at 74, as did also National Breweries at 44-1/2. Steel of Canada in a single board lot transaction, was up a point to 87. Consolidated Smelters, the only other issue to appear in a board lot, was stronger by 1/4 at 85-1/2. Union Bank sold the same at 113-3/4. Canada Cement and Laurentide in small lots, appeared at 104-3/4 and 79-1/2 up 1/4 and unchanged respectively. The only other leaders to receive attention were Howard Smith preferred, Southern Canada Power and Detroit Railway off 1/2 at 106, off 11-8 at 77-3/4, and off 1-8 at 87-3/4. Trading in these issues was very light.

UNEVEN IN WALL ST.
NEW YORK, June 15.—Uneven price movements characterized the opening of the new week in the stock market. General Railway signal opened 3 points higher and Cuba Cane Sugar preferred, 1, but initial losses of 1 to 2-1/4 points were recorded by American Can and the Pan American issues. Banks reported the usual heavy demand for funds in connection with income tax, interest and dividend payments.

Morning Stock Letter
NEW YORK, June 15.—Saturday's market closed strong in nearly all groups of stocks. A great deal of buying was, of course, from the shorts, but what stood out was the fact that offerings were not very large and that, consequently, stocks advanced very easily. How much public buying will be attracted to the market this morning is a question, as all papers are featuring the alteration which has arisen with Mexico. We doubt, however, if there is such a reaction at the present time. Oils have been in the lead for the last week, and while on the last days of the week they struck a resting spell, their upward movement is probably only temporarily halted. We look for higher prices. Texas Co. is a good purchase on any set-back. Some of the rails would play a more prominent part in the market this week, and we look for higher prices in D. L. & W. Reading and L. E. R. It is a purchase at these prices.
LIVINGSTON & CO.

Brokers' Opinions
NEW YORK, June 15.—Houseman: "For the present we expect oils to lead the market."
Clark Childs: "Market sentiment has been quite steadily improving the last few days."
Hornblower: "The oil averages are rapidly approaching the previous high. Once this crest is attained we feel higher prices will result in a reaction with diminishing resistance."
Tobey and Kirk: "A continuation of upward trend is indicated for the near future."

Current Events
NEW YORK, June 15.—Fed. Mining and Smelting, quarter ended April 30, surplus before depreciation, \$221,389, against \$322,000 year ago.
President Coolidge says it makes no change in sugar tariff, holding difference in cost of production in Cuba and this country insufficient to warrant change. Influenced by fact it would cost treasury \$40,000,000.
Los Angeles Basin Oil production last week averaged 350,000 barrels daily, gain of 1,800 daily over preceding week.
Great Northern declared regular semi-annual 2 1/2 per cent. on preferred.
N. Y. Edison placed order with Gen. Electric for installation in New York of \$2,500,000 cable line.

MONSTER TUNA IS TAKEN FROM WATER OFF CAPE BRETON COAST

Zane Grey Establishes Record by Landing 758-Pound Fish.

As a writer of stirring tales of the border and the mid-western states in the early days, Zane Grey has made an enviable record for himself, but now along he comes with another—a fish story—and better still, presents the proof in photograph, so that his yarn does not take on the semblance of a dream or a good bit of storytelling.

A tuna, weighing nearly half a ton, are the reward of ambitious anglers who fish in Nova Scotia waters, particularly in St. Ann's Bay, off Cape Breton. Three monster tunas have been taken from this locality, each holding the world's record in tuna. Captain Laurie D. Mitchell's 710-pound tuna held a record for a number of years, till along came J. K. L. Ross of Montreal, well known as an owner of racing horses, director of the Canadian Pacific Railway and his skill as a fisherman. He landed a tuna after 3-1/4 hours' fight, that measured 9 ft. and 2 in. in length, and 6 ft. in girth, and tipped the scales at 712 lbs. thus winning the honor of record tuna fishing from Captain Mitchell by 2 lbs.

His record seemed secure, when along in August, 1924, came Zane Grey and his brother, R. C. Grey, eager to catch big tuna. They used a Nova Scotian-built schooner, a staunch little craft admirably adapted to their plans and needs. They got three tunas, weighing respectively 688, 684, and then as a climax, the biggest tuna ever landed, weighing 758 pounds. The time taken to land the first was 6 hours and 10 minutes, for the second, 58 minutes which was caught by R. C. Grey, and 8 hours and 10 minutes were spent to conquer the record breaker with which Zane Grey is said to have wrested the Palm from the C. P. R. director and won the title of champion tuna fisherman.

Other big fish of various species taken in various Canadian waters, include a record pike caught in Big Lac Nominique in the Laurentians of Quebec, weighing 98 lbs.; a 81-1/2 lb. muskellunge caught in French River, Ontario, by Samuel W. Franklin of New York City; the world's record speckled trout, weighing 141-1/2 lbs., taken from Nipigon River by Dr. J. W. Cook of Fort William; and a great Northern pike, 4 ft. long and a weight of 21 lbs., which gave Harold Sweeter of New York a 45-minute fight on the Nipigon.

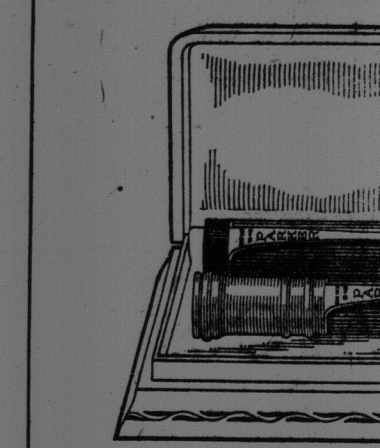

Canada's infinitude of rivers and lakes are filled with a vast wealth of fish, many of them of record measurements and weight. The foregoing are sportsman's records.

WEATHER GIVES BUSINESS BOOM

Middle Canada Reports Great Impetus in Hardware Lines—West More Confident.

"Hardware and Metal," Toronto, comments on hardware and metal market movements as follows in its issue of June 13:

"Torrid weather conditions of the last week in Eastern Canada have resulted in a most surprising impetus to retail and wholesale distribution of many hardware lines. London reports the busiest week in many months, with an exceptionally heavy demand for seasonal goods. Montreal dealers state a decided improvement was noticeable, which, at times, needed their fullest energies to keep up with business offered. In Toronto district, the movement of refrigerators, electric fans, garden hose, screen doors, window screens and screen wire cloth developed rapidly and in proportions altogether unexpected. Wholesale distributors state that the rush of telephone orders necessitated extra assistance, that sales of certain reasonable lines advanced all last year. Rush orders came in from all sections of the country for immediate shipment by express or truck.

"Reports from Western Canada indicate considerable confidence to trade in that section. Crop prospects in Calgary district are decidedly good, with moisture conditions much better than in recent years. This is having a beneficial influence on trade. Winnipeg reports considerable activity in building supplies, auto accessories, sporting goods, garden tools and paints.
"Auto tires have been advanced 5 per cent. and tubes 10 per cent. Two advances have recently taken place on

IN THE MORNING HER TONGUE WAS COATED HAD BAD TASTE IN MOUTH

Miss Pearl L. Zinck, Barry Corner, N. S., writes: "I was awfully troubled with my liver, and used to get such dizzy spells I would have to sit down while I was doing my work."

"In the morning, when I used to get up, my tongue was coated and I had a bad taste in my mouth and often times, throughout the day, I was troubled with pains in my stomach."

I suffered in this way until a friend of mine who had used your

MILBURN'S Laxa-Liver Pills

told me of having taken them, so I decided to try them, and I can truthfully say that they certainly did me a lot of good.

I cannot recommend them too highly to all those who suffer as I did."

You can procure Milburn's Laxa-Liver Pills at all druggists or dealers; put up for the last 30 years, by T. T. Milburn Co., Limited, Toronto, Ont.

tires in the U. S. aggregating almost 20 per cent. Local competitive conditions retard advances, but rising costs of raw material may force Canadian manufacturers to higher quotations. Primary producing centres in the U. S. report continued strength in crude oil. Further advances in gasoline, it is stated, are possible. Steel continues steady locally, with buying for immediate requirements. The lead markets appear to be regaining strength and advancing tin quotations are attracting considerable attention. Collections are described as fair.

TO ARRANGE FOR ENGLISH SETTLERS

Church of England Delegates Return After Conference in London.

Canadian Press.

TORONTO, June 15.—Canon C. W. Vernon, general secretary of the Council for Social Service, Church of England, has returned from England, where, as a member of a delegation from the Canadian church, he has been in conference with the Council of Overseas Settlement, established this spring under the auspices of the Church of England Assembly.

Canon Vernon was accompanied to England by Right Rev. J. E. Blinwell, Bishop of Ontario; W. G. Styles, Regina, and G. B. Wood, Toronto. While in London they were guests of the Bishop of London.

Understanding Reached.
A satisfactory understanding was reached between the Council of Overseas Settlement, which will disseminate information regarding openings in the Dominion for prospective settlers and make selections, and the Church of England in Canada, which will endeavor to provide suitable settlements and seek openings for British immigrants.

13-YEAR OLD GIRL RESCUES TWO BOYS

Dives Into Water Fully Clothed and Drags Them to Safety.

United Press.

BELLE HARBOR, L. I., June 15.—Diving into the sea, fully clothed, 13-year-old Julia Wigmore rescued two boys from drowning here.

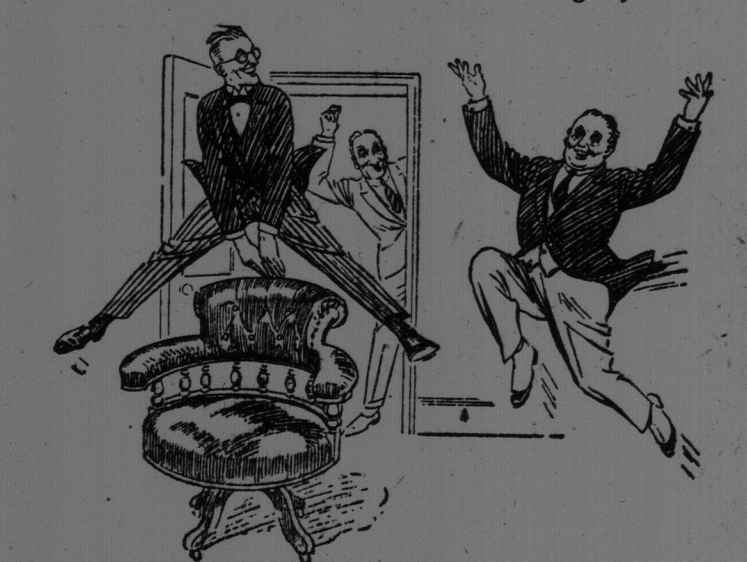

Gerald O'Brien, 15-year-old son of Surgeon John P. O'Brien of Manhattan, had jumped into the water to save John O'Connor, 14, who had been seized with cramps. Then O'Connor grabbed O'Brien around the neck and both their lives were imperilled.

Seeing their predicament, the school girl rushed to their aid and, unaided, succeeded in dragging both boys to safety.

STAGS WIN GAME

The Millidge avenue Stags defeated the Indians in a game of baseball Saturday evening by a score of 15 to 5.

They're better men in every way,
When "Kruschen" starts the live-long day.

That "Kruschen" Feeling!

You can't keep it out!

It's not merely that you get up in the morning feeling life to be the best thing that ever happened; that you tackle breakfast with the appetite of a cowboy; that you set out for the office chirruping like a skylark; that after you've got through a full day's work you still feel as fresh as paint.

It's not merely this. "That Kruschen feeling" bobs up at odd moments while you're actually engaged on the serious work of the day—and enables you to do it better, too!

And it's so easy to acquire it! No bothersome rules and regulations, no monotonous exercise, no special dieting. All you do is to tip a tiny, tasteless pinch of Kruschen Salts

every morning into your breakfast cup of coffee or tea.

Because Kruschen is a combination of just the vital salts that Nature ordains for the body's perfect health, it does for you what no other salts can do. Not only does it cleanse the body of all clogging waste matter; not only does it purify and refresh the blood; it also has a most remarkable tonic influence over the whole system, filling you with that unconquerable feeling of fitness, energy and cheerfulness which is known all the world over as "that Kruschen feeling."

Remember—it's the "little daily dimethyl" that does it! Buy a 70c bottle of Kruschen Salts to-day and start a new chapter in your life tomorrow.

Good Health for Half a Cent a Day

A 70c bottle of Kruschen Salts contains 100 doses—enough for six months—which means bounding health for less than half a cent a day. The dose prescribed for daily use is a 70c bottle to-day.

SOLE IMPORTING AGENTS: CHARLES GYDE & SON, MONTREAL

The batteries were: For the winners, White and Buckley, and for the losers, Rolland, McGaw and Stewart. Features of the game were the pitching of White and the home run of Eastham of the winners with three men on base.

THUNDER STORM
During a thunder and lightning storm, which passed over the city about 11 o'clock last night three-tenths of an inch of rain fell. The wind in this district was only light, varying between 16 and 15 miles an hour. The storm was only of short duration but the rain fall was heavy.

The arteries of business
If you could X-Ray a modern skyscraper, what would you see?
An intricate system of electric wires and cables branching out like the arteries of your body. Some for illumination, some for messenger signals, some for bells and buzzers, some for telephones, some for fire and burglar alarms. And all for efficiency!
Without these the building would be useless. For these electrical aids are essential to every modern business.
And thus, in the work of making dependable electric cables—the very arteries of business—does Northern Electric contribute to the greatness of Canada's trade.

Northern Electric
Makers of Canada's Telephones
The Name on the phone
