

FEAR SETTLEMENT WILL NOT HOLD

What They Think in England About the Strike of Miners.

London, Nov. 4.—(Canadian Ass'n. Press)—Commentators on the coal settlement today almost unanimously doubt its permanency in its present state.

Its terms are too much complicated for discussion in a cable, but it can be said that expert opinion shows nervousness because they do not appear to provide favorable conditions for that increase in output which the government insists, is the country's crying need.

Final figures of the ballot, showing as they did an actual majority against settlement, have given cause for disquiet. The miners' federation, however, took the responsibility for calling off the strike, several members declaring that the men would return to work willingly.

The Times sees this much good in the strike—that it has cleared the air and shown many suspicions on both sides to be too sweeping. Nevertheless, the Times with other newspapers, betrays a note of fear that the extremists have not been finally dealt with, although there may be peace for some little while.

OXO GENERATES HEAT

Concentrated Beef Cubes Fortify Body Against Chills.

An Oxo cube dissolved in a cup of hot water is a splendid thing to take before going out in the cold or damp, or on coming in, if one feels the slightest ill effects. Besides its nourishing and invigorating properties, Oxo acts as a fuel in the body, generating heat that the system requires.

Oxo cubes—in tins of four and ten cubes—have endless possibilities. For soups, sauces, gravies, savory dishes and meat jellies, they do all that meat could do, and do it quicker and with less trouble. Use Oxo cubes with "left-overs" and odds and ends for new, delicious dishes.

There is nothing better than Oxo for building sturdy boys and girls.

SUGGESTS POLICY FOR COAL EXPORT FROM THE STATES

Washington, Nov. 4.—Limitations on the export of coal to insure an adequate supply for home industries are to direct the trade to countries that are natural markets for United States coal and to those to which United States ships sail in ballast, were advocated today by Secretary of Commerce Alexander in a discussion of a national coal export policy.

When conditions return to normal, he said, there is little possibility of United States producers obtaining a permanent foothold in Europe and competing with the mines of Great Britain, Germany and France. For South American countries, however, he declared the United States is a logical and natural source of supply.

"Our national prestige in these countries would be increased," he continued, "if the United States were looked to as a friendly and certain source for such indispensable raw materials and our influence would be correspondingly increased if any drastic action was taken to hinder the free movement of coal to these countries."

He said coal would be exported advantageously to countries on trade routes where American ships lack cargoes for the outward voyage. He urged producers and shipping interests to co-operate to this end.

Coal supply for home industry, however, should first be assured, the secretary declared, before any determined effort is made to obtain foreign markets.

A Wonderful Discovery Cures Catarrh Permanently

Formerly doctors prescribed stomach treatment for Catarrh and Bronchitis. They seldom cure. Catarrh has become a national disease. Today the advanced physician fights Catarrh by medicated air. He fills the lungs, nose and throat with the antiseptic vapor of Catarrhose. It is easy then for Catarrhose to cure. It contains the essences of pure pine balsams, reaches all the germs and destroys the disease. Every case of Catarrh, Bronchitis and Sore Throat can be cured by Catarrhose. The dollar outfit lasts two months and is guaranteed to cure; small size 50c.; trial size 25c., all dealers or Catarrhose Co., Kingston, Ont.

NO REFLECTION ON MEDICAL STAFF

G. P. Hospital Commissioners Disavow Anything Reflecting on Ability and Sincerity of the Doctors.

The board of commissioners of the General Public Hospital held their monthly meeting yesterday afternoon. Those present were the chairman, Dr. Daniel, Dr. Crawford, Messrs. Kelly, Emerson, Jewelling and Dr. Hedden, superintendent.

According to a report submitted it cost \$8,495.55 to run the institution for October. The bills were approved. The matter of an auxiliary plant for lighting purposes in case of emergency was discussed. It was estimated it would cost \$10,000. It was decided to have a committee report.

With regard to the milk situation it was decided that before contracting for a supply Dr. Hedden and Dr. Crawford should examine into the source of the supply, have the bacteriologist make a report and then contract for the best in accordance with the records secured.

The following letter was read:—
To the Board of Commissioners General Public Hospital, St. John:

Dear Sirs:—At a meeting of the Medical Board of the General Public Hospital, held on October 29, it was unanimously resolved that the following resolution be presented to the Board of Commissioners of the General Public Hospital:

"Gentlemen, our attention has been directed to an article in the St. John Telegraph of October 21, in which the following statement occurs:—
"The board is desirous of having the hospital standardized, but it was said at the meeting that what was required was not more accommodation in the hospital, but more intensive study on the part of the staff and a higher class of work."

"Your medical board are of the opinion that the above statements are not only injurious to the hospital, but also unfair and damaging to the members of the staff."

"Under the circumstances we would be pleased to know whether the statements, as quoted, expressed the opinion of the board, and if not, whether they were the expressed opinion of one or more members of that board."

"We would also be glad to know by whom the statements were published in the daily press."

"It is a matter of regret that the commission carried out service of the staff met with such a reception."

"The medical board would be deeply gratified to receive a communication from the commissioners with as little delay as possible."

"J. H. ALLINGHAM, Secretary."

In relation to this matter a letter was reported drafted by the commissioners expressing regret that any feeling had been stirred up, and disclaiming any intent or act on the part of the board that in any way reflected on the ability and sincerity of the staff.

NEW BUSINESS FIRM.

Two more of the city's prominent war veterans have entered business on their own account. It became known this morning that Norman J. An Important Letter

BRAMPTON, ONT.—"About five years ago I began suffering with woman's trouble. I became run-down, weak and nervous. I was so completely down and out that I could not do anything, could scarcely dress myself. I had the doctor and took other medicine but without getting better until I began taking Dr. Pierce's Favorite Prescription and his Golden Medical Discovery. It was only necessary for me to take about three bottles when I was completely restored to health and strength and I have been in better health than I ever was before. I have had no use for medicine since, but should I need it, I would take these same remedies, knowing them to be excellent."—Mrs. HARRY KNIGHT, Jessie Street.

Dr. Pierce's Favorite Prescription is a non-alcoholic remedy that any ailing woman can safely take because it is prepared from roots and herbs containing tonic properties of the most pronounced character. It is not a secret remedy for its ingredients are printed in plain English on the wrapper.

Get the 'Favorite Prescription' to-day either in liquid or tablet form or send Doctor Pierce's Invalids' Hotel, Buffalo, N. Y., 10 cents for large trial package tablets.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

SCHOONER RACES IMPERIAL TOMORROW

Also Jack Pickford in O. Henry, Story—Serial Story and Canadian Pictorial.

Following the delightful engagement of the "Dumbells" at Imperial Theatre the big Keith house will tomorrow, (Friday) return to its policy of photoplays with a feature warranting to attract adults and children in especially large numbers. This is a story by no less a favorite author than O. Henry, being an entertaining Texas comedy-drama, "A Double Dyed Deceiver." Jack Pickford essays the role of hero in this piece and it is one of the best productions of the Keith house in that this favorite star has yet acted.

The Imperial will also show the evening schooner races of Halifax between the victorious "Papernato" of Gloucester, Mass., and the "Delawanna" of Lunenburg, N. S. These are the first motion pictures of the international races to reach St. John and will contain the element of interest for everybody.

The serial story, "The Lost City," will be included in the Friday-Saturday bill, which is a splendid programme throughout and includes the Canadian Pictorial filled with news items from all over the Dominion.

ARREST MADE IN HOSPITAL CASE IN FREDERICTON

GERMAN SCHEMERS HAD CLEVER PLAN

Told Story of American Fortune to Obtain Goods Valued at \$375,000.

Berlin, Nov. 4.—Originality in fraud, one would think would be very difficult in Germany now, for since the end of the war so many people have been living by their wits and endeavoring by every means save honest work to get rich quickly. But Herr Riedling and his wife, a Westphalian couple, certainly showed great genius in working a coup which came near to success.

They entered into negotiations with the proprietor of the estate of Matzdorf, near Friedland, in Mecklenburg, for the purpose of buying his property. An evidence of their ability to pay the sum demanded, 4,000,000 marks, they produced papers showing Frau Riedling had come into a fortune of \$4,000,000 in America, and that besides her wealthy relative had left her a meat-canning business in Chicago employing 600 workers.

It was arranged that the new owners should pay the purchase money when the great country house on the estate had been refurbished and redecorated to meet their tastes. The original owner gave them temporary possession in order that they might do so. They then proceeded to order \$10,000 worth of carpets, furniture and curtains. Ornaments and objects of art and costly electric lamps to the extent of \$25,000 were obtained from some of the biggest firms. Riedling had underwear and clothing worth many thousands of dollars sent to him from Stuttgart, and his wife had obtained a wonderful array of gowns from the most fashionable modistes in Berlin and elsewhere.

By and by those who had supplied the goods began to press for payment. Frau Riedling held them off with promises while she and her husband were making elaborate preparations to disappear with all that could be carried away. But the attention of the police was drawn to their goings-on, before these preparations were complete and the couple were arrested two days before they had arranged to depart with \$275,000 worth of booty.

Tonnage However Shows Increase—Some Figures from Ottawa.

(Special to Times)

Ottawa, Nov. 4.—The number of steam vessels on Canadian registry has decreased from 4,437 to 4,485 during the last year but the gross tonnage has advanced from 890,867 to 1,060,477. Sailing vessels in the last year decreased from 4,220 to 3,897. Here, too, there was an increase in gross tonnage from 512,662 to 618,806. The reason for this is that a large number of small steam and sailing vessels are going out of existence, being replaced by vessels of larger tonnage.

For example, in September eighteen vessels of a total gross tonnage of 9846 tons were added to the registry and the tonnage bureau of statistics found that there had gone out of commission during the same period forty-five steamers with a total gross tonnage of 6,461. Eighty sailing vessels of 4721 gross tonnage disappeared and nine vessels of 2151 gross tonnage were added. In August and previous months the same situation existed. This registry covers all vessels, ocean, coasting and inland from ten tons up.

PRIVATE J. H. CLARKE (late Royal Field Artillery) British Expeditionary Force.

"I was at Giverny, Fetzubert, Neuve Chapelle, Arras and Loos before I got the wound which necessitated the amputation of my left arm. The hospital I was in was bombed every second day for two whole months. A comrade advised me to take Phosferine, but I did not feel anything would put me right, for I was suffering from rheumatism through sleeping on damp ground. I gave Phosferine a trial, and it proved a very effective remedy for rheumatism, and also put my nerves in a far better state than before I entered hospital. After that I was put on a hospital ship which went down the same day it sailed. I am positive certain that but for Phosferine I should not be able to boast of the good health I am now enjoying."

This stout-hearted artilleryman declares that without the re-vitalizing aid of Phosferine, he would certainly have been permanently disabled by his terrible experiences—Phosferine sustained and strengthened his nerve system when his natural forces were exhausted, and thus assured the extra vitality to outlast all the shock and strain he underwent.

When you require the Best Tonic Medicine, see that you get PHOSFERINE
