The board of trade has received a letter from Norman Johnston, the Canadian trade commissioner at Bristol (Eng.), saying that he was to sail for St. John on the Empress of France and would arrive here April 4. He would like to meet any business men of the city who are interested in the export trade.

A ten per cent advance in wages became effective yesterday in the Cornwall and York cotton mills, St. John's Gibson mills, Marysville, St. Croix mills, Milltown, and plants of the Canadian Cottons, Ltd., elsewhere.

The C. P. O. S. Corsican sailed last evening at 6 o'clock for Liverpool. She took away approximately 200 passengers, besides mails and general cargo. VETERANS RESCUE 50
FROM HOME FIRE

Louisville, Ky., March 29—A rebel
shell, sounded throughout the Confeder-
ate Home at Pewee Valley, Ky., near
here, was the first alarm of a fire that
destroyed the institution.

Commanded by Sergt. Gus Head, who
was the keeper of John Morgan's
nursery, the 100 veterans at the home
were able to walk left the building
at double-quick, went to the hospital
building made liters of the coats and
carried fifty invalid comrades to safety
in the little stone church near by.
Many of the latter, however, became
excited and are not expected to survive
the shock.

After Sergt. Head had called the roll
the men, a majority of whom were
members of Morgan's cavalry, sat cross-
legged upon the grass and stoically
waited until the smoldering ruins re-
sembled but a bivouac of days gone by,
then tramped slowly to the little church,
spread their blankets and slept.

NO COCKTAILS ON SANDS
FOR SOCIETY, DRY DECREE

New York, March 29—Cocktails-on-
the-sand parties will not be in fashion
at Narragansett Pier, Newport, and
other fashionable watering places along
the Connecticut, Rhode Island and Long
Island shores this summer—at least not
if James Shervin, prohibition commis-
sioner of the New York department
and his flock of keen-eyed agents can
help it. The commissioner rules that
carrying alcoholic stimulants from a
clubhouse to the bathing beach—by
thermos bottle, or in the hip, or other-
wise—is in violation of the "dry"
amendment, and decrees that it is not
to be done in our best interest.

IDLE BLOOD CAUSES DEATH.

London, March 29—A new cause of
death discovered during the war can
best be described as "idle blood." Prof.
W. M. Bayliss said that many wounded
soldiers had died with all the symp-
toms of extreme loss of blood. Yet in
some cases they had not lost much
blood. Prof. Bayliss said that the
blood had gone "out of circulation,"
and the blood which should have been
in the veins and arteries was found in
the capillaries.
