## HALIFAX MAN RELATES FACTS ABOUT TROUBLE

Says His Restoration to  
Health Proved Greatest  
Surprise of His Life.

"I am now fifty-nine years of age and have taken lots of different kinds of medicine, but I have never run across anything that equals Tanlac," said James Julian, of 7 Cornwallis street, Halifax, recently. Mr. Julian has lived in Halifax for the past thirty-six years and is highly respected by all who know him. He is a carpenter by trade.

"I have just finished my second bottle of the medicine," he continued, "and the way it has helped me has been the greatest surprise of my life. I have improved so much already that I am ready right now to tell everybody about Tanlac. For the past two years I have suffered beyond words to tell on account of my stomach and kidneys and had gotten in such a bad fix that I had begun to think I would never get any better. My appetite left me entirely and I have gone through many a day without eating a bite. When I did eat anything it felt like lead in my stomach and would cause me to suffer for hours. I would beat up terrible with a sour gas and have severe pains in my stomach and sides for days at a time. My kidneys were in bad shape and I had to wear a plaster on my back all the time. I was also habitually constipated and was constantly taking something for this as well as for my other troubles, but nothing did me any good. My energy and strength all left me and I got to where I had to lay off from my work two and three weeks at a time. What little work I did do exhausted me so I could hardly stay on my feet. I could hardly sleep at all and would get up in the mornings feeling just about half dead. I was so nervous and shaky that I couldn't write my name so it could be read. I lost weight all the time and I have gotten discouraged and despondent that I wanted to be alone all the time, and often felt like I could not live much longer.

"I kept reading about Tanlac until I finally made up my mind to try it and, as I said, the way it has helped me has been the greatest surprise of my life. My appetite is just fine and I can eat just anything I want without feeling a sign of indigestion. I sleep just like a school boy and get up in the mornings ready to tackle any kind of job that comes to hand. My nerves are strong and steady and all that tired, despondent feeling has left me. I am no longer constipated, my kidneys are in good shape and the pain is gone out of my back entirely. In fact, I am just feeling great, a hundred per cent better than I have in two years, and the result of my having gotten from Tanlac in this short time certainly wonderful.

Tanlac is sold in St. John by Ross Drug Company and F. W. Moore, under the personal direction of a special Tanlac representative.—(Adv.)

Jersey City, Aug. 11—Battling Levinaky, of Bridgeport, Conn., outpointed Clay Turner, an Indian from St. Paul, in an eight round bout here tonight.

**This Boxer Travels in Style**  
A boxer does not necessarily have to wait until he attains the top rung of pugilism's ladder to assume the dignity of a champion. Billy Cepak, a Bohemian boxer, hailing from Chicago, is an illustration of this point. Cepak carries two trainers and a valet with him when ever he travels for a bout, has two automobiles, and is a member of a number of clubs.

**Easy For Mason**  
Baltimore, Md., Aug. 12—Frankie Mason, Indiana phantom, won all the way over Johnny Ertle, of St. Paul, in their fifteen-round fight here last night. Ertle was beaten at every turn and rocked from left to right with sharp well-directed punches, but was never close to a knockout.

## MANY LIVES SAVED BY SANITARY PRECAUTIONS

Sanitation is no longer looked upon as a fad. Gradually the public have become educated to the necessity of sanitary methods being followed in all things. It is a poor housekeeper indeed who does not keep "Sanitation" as a watchword in her household. The trials of the housewife are many, and there are some who take to take the precautionary methods that somehow seem a little useless, but after all they are worth while.

In the bathroom, perhaps more than in any other part of the house, the greatest care should be taken to keep the fixtures in a sanitary and spotless condition. Snowflake Ammonia dissolved in boiling water and used freely will prove just what is needed to cut the grease and soap lines that accumulate in the bathtub and wash basin. Chloride of lime added to a little stronger solution of Snowflake and water will remove the most obstinate stains from the toilet bowl. After that the Snowflake Ammonia solution is sufficient to keep the whole bathroom white and sanitary. Snowflake can be obtained from all grocers.—Adv.

## STAGE AND SCREEN STARS ARE SUED FOR HALF MILLION

Action Taken By Shuberts Along  
Lines Followed In Danbury  
Hatters Case

New York, Aug. 12—Suits for \$500,000 for damages alleged to have resulted from the strike called by the Actors' Equity Association were filed by the Winter Garden Company (the Shuberts) in the United States district court here yesterday against nearly 300 of the country's most prominent stage and screen stars.

The complaint, which charges the actors with conspiracy, follows the general line of the famous Danbury hatters case, in which the hatters, members of a labor union, were sued successfully for \$220,000, and many of the workmen lost their homes through attachments to satisfy the judgment.

The screen stars were named as defendants, it was explained, on precedent set in the Danbury hatters case where it was held by the court that individual members of a labor organization are responsible for the acts of its officers although the members may have no connection with the case at issue.

## MICHAELIS COMES TO OWN DEFENCE

Former German Chancellor Says  
Only Part of His Letter Re  
British and Peace Was Given  
Out

Berlin, Aug. 12—(By the Associated Press)—George Michaelis, former imperial chancellor, has sent to German newspapers a statement declaring he did not refuse to negotiate with Great Britain through Pope Benedict in 1917, as has been alleged by Premier Bauer in recent published statements. Bauer has made public a letter from Dr. Michaelis to Field Marshal Von Hindenburg, dated September 12, 1917, seeking to prove that there was a refusal to meet Great Britain with a view to making peace at that time.

The former chancellor declares that in making public the letter, the premier suppressed one important part. This section, Dr. Michaelis includes with his statement to the press. It follows:—"Who will venture to attack Germany again after she has maintained herself three or four years against superior power, and lately as an incomparable proof of her competence, has achieved a brilliant victory in the east? If we, on the above basis, were able to obtain peace for our poor, tortured people and the world, then we ought to do it, and not conduct this war one moment longer."

Dr. Michaelis concluded his statement by saying that his letter, the premier has published the representatives of the government would not have convinced a portion of their party that he had refused a peace offer in an "irresponsible manner."

## POLICE CAPTAIN KILLS BURGLAR

Found In House At Greenfield  
And Shot to Death When He  
Ran

Greenfield, Mass., Aug. 12—A man thought to be Harry Norman Simonds of Ashland, Ohio, who was found in the home of Fred Farley in this town, was shot and killed by Police Captain C. O. Fitzgerald. The man is believed to have been responsible for seven or eight burglaries here during the last few weeks. He had \$700 on his person, \$400 of which was in a money belt. He had no weapon, and the only tools which he carried were three hacksaw blades, fastened to a string and tied about the calf of his leg. All of the houses that have been robbed have been entered through windows left open or unlocked.

Mrs. E. R. Walker, who lives next door to the Farleys, saw someone moving about the Farley house about one a.m. and her husband notified the police. Captain Fitzgerald and a patrolman responded, and at their instruction, Walker rang the Farley doorbell. The intruder answered, and while one officer threw a flashlight on him, the other officer with a revolver. The man threw up his arms in apparent submission, but when Fitzgerald stepped forward to search him, he struck the officer in the face and ran. Fitzgerald fired two shots, one striking the man in the leg and the other passing through his heart, killing him instantly.

A draft registration card, bearing the name of Harry Norman Simonds of Ashland, Ohio, was found in the man's pocket, together with other articles indicating that he recently had been in Montpelier, Vt.

Phillips; "Rideau and Trent Canals," by L. Sherwood; "The Beverley and Newboro' Lakes," by Tyth Boushall; and "The Summer Call to the Northland," by Walter Thornton. ## SAY THIS OFFICER RAISED PAY CHECKS

Verrill, Arrested at Atlantic City.  
Cut Wide Swath at Hartford, Ct.

Hartford, Conn., Aug. 12—Agents of the department of justice, at the request of federal authorities in New York city, have placed attachments on the bank accounts and automobiles of Eric C. Verrill, an army officer of this city, who was arrested recently in Atlantic City charged with defrauding the government of large sums.

Investigations conducted by federal officials have led to the discovery that Verrill raised his \$60 bonus check to \$8,000 and through a similar treatment of pay checks it is claimed he obtained nearly \$50,000. When arrested he was preparing for a trip to England with his wife.

**Spent Money Recklessly.**  
The young officer attracted considerable attention when he returned to this city last spring by the way in which he spent money. Poker and crap games were favorite pastimes, as was the making of wagers as to how long it would take him to drive his automobiles from this city to outlying towns. At that time inquiry was made as to his right to wear an officer's uniform, but it was learned that he had been commissioned from an officers' training camp.

His past conflicts with the law have brought him considerable notoriety. In 1916 he was arrested and charged with stealing letters from the local post office and robbing a telephone pay station. He was indicted but adjudged insane and sent to a sanitarium for treatment. Previous to this he had been arrested.

## AMERICAN COLONEL GIVES FREE ADVICE TO RHEUMATICS

SAYS IT'S SHEER FOLLY FOR  
ANYONE TO SUFFER  
THESE DAYS.

Rheumatism can't be cured so long as your system is weak and run down. You must first build up and get strength to fight off the disease. Ferrozene cures because it builds up, because it renews the blood and dissolves the Uric Acid and the poisons that cause rheumatism.

It is proved right here that Ferrozene does cure. Col. H. M. Russ, of Edwards, St. Lawrence Co., one of the fine old heroes of the Civil War, was completely restored by Ferrozene. Read his statement: "I couldn't get around without a cane, and then only with difficulty."

"Rheumatism took complete control of my limbs. I was more intense than hardships on the battlefield. 'When my doctor had done his best I got Ferrozene. Then came a quick change. 'Ferozene gave me comfort at once, eased the pain and took the stiffness out of my muscles. 'I am well today. Ferrozene cured me completely. I can jump and run like I did forty years ago.'"

Why not get a supply today? The present medicine is useless give it up. Don't experiment again. Ferrozene is known on all sides to be a cure that does what no other medicine can. The sooner you begin Ferrozene the quicker you'll get well. Price 50c. per box or six for \$2.50. at all dealers, or direct by mail from The Catarthozone Co., Kingston, Ont.

## CARELESS SHAMPOOING SPOILS THE HAIR

If you want to keep your hair looking its best, be careful what you wash it with. Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulford coconut oil (which is pure and greaseless), and is better than anything else you can use. One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excess of oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulford coconut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

## A FINE PICTURE

One of the earliest window displays in honor of the coming of the Prince of Wales is made in one of the windows of the Canadian Drug Co., Prince William street. It is a large painting of "The Prince of Wales' Elm," at Harding's Point, on the St. John river, commemorating the visit of the then prince to St. John in 1860. The picture was painted more than forty years ago by John H. Bease. It is one of the best products of his brush. The tree stands out boldly in the foreground and is backed by the foliage of the woods. The left is the river with woodboats and a birch canoe. The painting is nicely framed and is draped with patriotic colors, the whole making an attractive display that causes many to stop to look.

**CAUTION:**—Although bitro-phosphatc, nervousness, sleeplessness and general weakness, it should not, owing to its remarkable flesh-growing properties, be used by anyone who does not desire to put on flesh.

## DOOR BELL RING BRINGS NEWS OF FORTUNE TO MAINE SECOND-HAND MAN

Lewiston, Me., Aug. 12—George L. Hatch of Lewiston, a man of about 50 years, employed in the second-hand furniture store of E. M. Marsh, is the object of considerable publicity at present as he has suddenly found himself the man to state his name and give a brief account of his family history. After so doing, he was informed that the stranger was the administrator of the will of his uncle who had died in Deadwood, Cal., and from whom he had heard nothing since visiting him in the West in his youth. It developed in the course of conversation that the fortune amounted to \$250,000 and Mr. Hatch is one of five heirs. Thus far he is the only one accounted for.
