SULTAN MAY HOLD HIS JOB BUT IT WILL COST HIM QUITE A BIT OF MONEY

(Continued from page 1.)

CONSTANTINOPLE, April 26—Constantinople experienced last night the effects of the state of siege declared yesterday. The capital resembled a city of the dead. No one was allowed on the streets after 8 in the evening and the carrying of arms by civilians as well as the publication of news likely to create disquietude are strictly prohibited.

The Committee of Union and Progress has issued a statement denying the allegations attributing the recent occurrences to controversies between the political parties and saying that the march of the constitutionalists on the capital was undertaken under the influence of the committee. The statement sets forth that the tragic events of the past fortnight were provoked by "Wretches and vile personages who were injured by the proclamation of the constitution."

Soldiers were corrupted with money and incited to commit acts of savagery. The holy mission of the army is above personalities. The committee wishes to work for the general interest and serve the fatherland.

The arrests of the reactionaries and religious students continue and it is estimated that up to last night 4,000 such persons had been apprehended.

The last burials of the men who fell in the fighting of Saturday took place last night. The dead number about 300 and the men in hospitals do not reach the total of 500. Five thousand troops were taken prisoners.

One body of prisoners marched past Schefket Pasha's headquarters this morning on their way to camp in the country. They were in no sense downcast, but were smoking cigarettes and chatting with animation. A few prisoners have been shot in attempting to escape. An artillery man who was waiting examination at Schefket Pasha's headquarters was knocked down today by a soldier in one of the Constitutionalist regiments. The soldier was dragged away by his comrades but he called out in explanation of his act, "That rascal killed our officers." The men suspected of instigating the mutiny of April 13, have been separated from the main bodies of prisoners and will be tried by court-martial.

It is rumored today that prisoners are being shot in the country beyond the Sweet Waters, but definite assurances were obtained at Schefket Pascha's headquarters that no executions yet had occurred, although a considerable number were probable.

Two hundred of the Sultan's Albanian soldiers stationed at the imperial palace at Yildiz, persistently refused today to surrender their quarters, which are adjacent to the main gates of the palace enclosures. Although these men have not fired on anyone their steadfast refusal to submit and be disarmed is very annoying to Schefket Pasha, who is arranging to attack them and force their surrender unless they will do as he desires.

The correspondent repaired to the scene of this threatened trouble. "Some of His Majesty's children are disobedient," remarked the officer commanding the approach to the gates of the palace in reply to a question. "We have placed a battalion of Macedonian volunteers which are in close range, and we are awaiting only the arrival of artillery before making a final demand for surrender. If this is refused we must attack."

The Macedonians referred to were behind a series of long terraced walls between 300 and 400 yards from the Albanians' barracks, their cartridge belts were full. As the officer was speaking a number of Macedonian volunteers, mostly men of independent position, were arriving on the scene in cabs and carriages to have a share in the final engagement.

The Scutari artillery barracks, which yesterday threatened to bombard Constantinople, were fully evacuated today. The men who were in the barracks are prisoners and camped last night in an adjacent graveyard.

CONSTANTINOPLE, April 26.—Tewfick Pasha, the grand vizier, this morning transmitted to the Sultan the resignation of the entire cabinet and communicated this fact to parliament.

NEW YORK, April 26.—The games scheduled for today in the amateur 18.2 balk line billiard tournament here has been postponed until tomorrow because of the inability of Jos. Mayer, of Philadelphia, to be present. Jackson will meet Mayer tomorrow afternoon and Conklin will play Wright in the evening.

COMPLICATED WIRING IN BIJOU PICTURE HOUSE

(Continued from Page One.)

In answer to the magistrate witness said that the wires had been tampered with both downstairs and upstairs. The beams had no dust on them and were worn smooth where a person had crawled through frequently, and it looked as if they had used a certain amount of current to the meter and then cut it out from the meter. After visiting the room with the picture machine in it, witness went back between the ceiling and the roof again, and asked Mr. Brown if the two wires that fed the cable wire fed the machine, and Mr. Brown replied that they did. Witness then traced these wires to the Railway Company's service wire outside the meter, and the current that passed through the picture machine was not registered in the meter. Kerr would thus not have to pay for the current.

To Mr. Gerow, witness said he did not know how many metres were in the building or who were customers there. D. R. Jack, Dr. Day and the Christadelphian Society occupied rooms in the building. Witness knew of a wireman named Dykeman who is not employed by the Railway Company. Witness never heard of him doing any wiring in the building. He also knew Frank P. Vaughan, an electrician. He did not know if Mr. Vaughan had run the two wires from the basement to the ceiling.

To Mr. Taylor, witness said that the wires tapped did not supply appartments in the building other than the rooms occupied by the theatre company. The two lights on the street and the moving picture machine in the theatre were run through the meter. There were three lights at least and a testing machine run from the false wiring.

Wm. L. McLellan, a lineman for the Railway Company, testified that about six months ago he visited the Bijou Theatre basement where the meter is situated. He found one light tapped on the wire back of the meter. The wires were connected all right. The lights in the basement would not register on the meter. Some days afterwards he mentioned the matter to Mr. Kerr who said it would not occur again, and if he had known it, it would not hve occurred.

Hial A. Brown, chief electrician with the St. John Railway Company, told of his visit with Mr. Shannon to the theatre on Thursday afternoon. They looked over the wires, meter, etc., and everything looked all right. They took the main fuses out from the wires supplying the entire theatre. They went to a testing room and found that there was a current on the machine. To run one of these machines would take about 3,500 volts, and they ship either 50 reels of films a week or 50 three times a week. In takes about ten minutes to run through one of the films. Witness located the wires below and Shannon located them on top and found they were connected with the main wires above.

Witness had a conversation with Mr. Kerr and he told him that the wires were tapped on back of the meter. Kerr said that if they were he did not know anything about it and it must have been the operator who had done it as he had him up there doing some kind of work. He added that the operator had gone. Witness said there was no business for the operator up there and if Mr. Kerr sent the operator up there it must have been for the purpose of tapping the wire.

To Mr. Gerow witness said that if the wires had been tapped on the right side of the meter the company would not have objected, but any person adding lights is supposed to notify the Railway Company.

The case was adjourned and the prisoner was remanded until Friday morning at ten o'clock.

Mr. Gerow requested that the case be resumed this afternoon as he wished to be able to get his client out on bail. Mr. Taylor replied that he would willingly go on this afternoon if Mr. Gerow would procure Frank Chapin, the Bijou operator, who is said to have left the city in rather a mysterious manner Saturday night. Mr. Taylor said he read about it in a morning paper and he found the papers generally correct.

Mr. Gerow said he wished it understood that he knew nothing about Mr. Chapin leaving town and he had found that the papers were not always correct.

The St. Mary's Girls' Guild will give one of their popular dime literary and musical entertainments at St. Mary's school room, Waterloo street, tomorrow evening. A splendid programme has been arranged.

PARDONS FOR ALL IN GOEBEL MURDER

No Conspiracy, and Henry Youtsey Alone Guilty Id Historic Tragedy, Says Governor Wilscn.

FRANKFORT, Ky., April 26. — Only one man, Henry Youtsey, will ever be punished for the murder of one of Kentucky's Governors, at the threshold of the old State House, for Governor Willson this afternoon cleared the docket of the Goebell death conspiracy cases by pardons to all those under indictment for complicity in the crime. At one stroke of his pen he wiped off the slate all the indictments in the celebrated case pending in the Franklin Circuit Court.

Pardons, full and free, were granted to William S. Taylor, for a time de facto Governor of Kentucky; Charles Finley, de facto Secretary of State under Taylor; John L. Powers, a brother of Caleb Powers, who held office under the Republican administration when Taylor was holding the Governorship, which the courts said later belonged to William Goebel; Holland Whittaker, the first man arrested for the murder of Goebel, taken heavily armed at the State House just after the shooting; John W. Davis, policeman in the Capitol Square, and Zack Steele, of whom but little is known. All these men have been accused and indicted as accessories before or after the fact to the murder of Governor Goebel.

Henry Youtsey occupies a cell in the Frankfort Penitentiary and still bitterly insists that he was only one of a number who participated in the Goebel killing.

For nearly ten years fugitives from justice, some hiding in Indiana, under the protection of the officials of that State, and some in unknown places, these men who have been accused in this historic tragedy may now come back to Kentucky without danger of arrest.

In granting the pardons, Governor Willson reiterated the belief he expressed some months ago when he pardoned Caleb Powers and James B. Howard, that but one man had any part in the murder, and that it was not a conspiracy as the Commonwealth charged. Referring to Taylor's case, he said:

"I believe that Governor William S. Taylor had no guilty knowledge of the murder of William Goebel, and that he would never have been indicted but for political excitement and passion. Governor Taylor had the greatest reasons to believe that he could not have a fair trial, that he would be thrown from his position of Governor of the Commonwealth into the common jail, and that he would be forced to trial before a partisan jury under conditions which would give him no chance for a just decision.

"He had a large family, all wholly dependent upon his labor, and decided that it was his duty not to submit to a trial under these conditions, and he went to Indiana. His experience has been one of the saddest in the history of the state."

ATTEMPT TO SINK FRENCH SUBMARINE

Socialist Plot Exposed in a Letter to Naval Commander.

TOULON, April 24—A deliberate attempt to wreck the submersible vessel Circe is reported to have been made at this port. The Circe is one of the largest submarine vessels of the French navy, and was only recently launched. She has a displacement of 351 tons and a crew of twenty-five.

A few days ago Captain Ravoux, commanding the first Mediterranean submarine flotilla, received an anonymous letter stating that the Circe had been "sabote" (wilfully damaged), and that if he wished to save the lives of twenty-five men and prevent the loss of the ship he should act at once.

Captain Ravoux and Lieutenant Pamard immediately made an inspection. They found that the principal parts of the delicate machinery had been tampered with. Nuts and scraps of iron had been inserted in the engines in such a way that at the first attempt to drive a catastrophe must have resulted. Captain Ravoux made a secret report on the subject to the maritime prefect, and an inquiry was ordered. The mechanics who put the machinery together have been interrogated, and several arrests are expected.

It is suspected that the pieces of metal found in the Circe's engines were placed there by one of the numerous anti-militarists in Toulon Arsenal. The version given by the minister of marine is that a bolt accidentally fell into one of the submersible's dynamos.

The members of the Marine Inquiry Commission recently appointed by Parliament, with M. Delcasse at their head, have arrived at Toulon to pursue their investigations.

AMHERST, Mass., April 24.—A high wind made clean fielding almost impossible in today's game between Amherst and the University of Vermont, and Vermont won, 2 to 1, chiefly through Amherst's errors. Both pitchers were effective, and after the second inning neither nine scored.

"There's a Reason"

ANOTHER TRIUMPH FOR SANTOS DUMONT

Aeronaut Flies Mile and a Half on His New Monoplane Machine.

PARIS, April 24—M. Santos Dumont has achieved a new record in aeronautics by flying for a distance of one mile and a half in his diminutive monoplane Demoiselle at St. Cyr yesterday.

This is the first long flight ever made with a machine of this description, and, owing to the lightness and portability of the Demoiselle, aeronauts regard M. Santos Dumont's feat as marking an important departure in the science of aviation.

M. Santos Dumont's flight yesterday was terminated at the edge of a large lake near St. Cyr. He could have continued, but the success of the monoplant was assured, and he was afraid to tax the motor unduly until he had made further short trips.

Unfortunately, the tire of one of the wheels used in getting under way before ascending was damaged by the descent, and the Demoiselle was taken back to the shed.

M. Santos Dumont's success opens up an absolutely new field for aeronauts who wish to fly with the minimum amount of trouble.

His monoplane Demoiselle is so small that it can be carried comfortably on the back of a motor car, thus enabling the inventor to motor into the country, fly for a while and resume his journey by car wherever he chooses.

The monoplane is not only light, but compact, less than twenty feet long and about fifteen feet broad. Its total weight, including the aviator, is only about 330 pounds. It is fitted with a 24-horsepower motor, and the initial speed required to leave the ground is thirty-six miles an hour.

M. Santos Dumont built the monoplane last autumn, but after some experimental flights he made several alterations, including a change in the position of the motor. Six weeeks ago he resumed his tests, and succeeded in executing several flights of 200 yards at a height of from twelve to twenty feet from the ground.

The Demoiselle is built of canvas and bamboo, and runs along the ground on three wheeels until it attains sufficient speed to rise.

M. Santos Dumont is convinced that it will become one of the most successful types of flying machines for use by one aviator, and he has predicted that it will ultimately attain a speed of 120 miles an hour.

SAMUEL KITCHEN, OF FREDERICTON, DEAD

FREDERICTON, N. B., April 26—The death occurred here this morning from pneumonia, of Samuel Kitchen, a well known resident. The deceased was a brother of George Kitchen and uncle of Willard Kitchen. He was seventy-two years of age and leaves a widow, formerly Mrs. Smith, and three sons and two daughters.

The river today is at a standstill.

Over two inches of snow fell here last evening.

ASYLUM ACCOUNTS WERE GONE OVER TODAY

FREDERICTON, N. B., April 26. — The public accounts committee met this morning and examined the expenses incurred in conection with the Provincial Hospital during the past fiscal year. The cost of repairs and additions amounted to the sum of $16,284.86, while the supplies and salaries totalled $104,094.48. The several municipalities contributed for maintenance, $14,705.58, and paying patients, $9,867.61, admission fees were $2,960.

Dr. Anglin was present at the meeting and explained several of the items of expenditure. The morning was entirely taken up with an examination of the accounts, the auditor producing the bills. The Municipality of Westmorland paid the most for its pauper lunatics, followed by Carleton, St. John and York in the order named. This was the only committee to meet today.

ST. GEORGE'S DAY SERVICES.

The members of the St. George's Society marched in a body to the St. Paul's (Valley) church last evening and heard an eloquent sermon preached by Rev. E. Bertram Hooper, rector of the church. The sermon was on the great principles associated with the name of England's patron saint, and to which the members of the society were pledged.

Rev. Mr. Hooper took for his text, 1st Peter, chapter 2, verse 12: "Having your conversation honest that by good deeds which men shall behold, they may glorify God."

After the sermon the service closed with the singing of God Save the King and Onward Christian Soldiers.

FUNERALS.

The funeral of the late Arthur Carney took place at 8.30 this morning from the residence of his uncle, Michael McLeod, Main St., to Holy Trinity Church, where Requiem High Mass was sung by Rev. Father Walsh, and thence to the new Catholic cemetery for interment.

The funeral of the late David Mitchell took place this afternoon from his late residence, St. Andrews St., to Fernhill cemetery. Rev. W. W. McMaster conducted the service.

The funeral of Pascal Arseneaux took place on Saturday afternoon at 3.30 from 13 Brunswick St. to the Cathedral, where the service was conducted by Rev. Father O'Brien, and thence to the new Catholic cemetery.

TEDDY SLAYS WILD BEASTS

Kills Two and a Gazelle

FINE WEATHER

The Colonel Starts for the Ranch of Sir Alfred Pease

NAIROBI, British East Africa, April 25.—After a brief hunting expedition last evening at Papiti Plains, ex-President Roosevelt and his party broke camp and started for the ranch of Sir Alfred Pease, on the Athi River, today. Colonel Roosevelt spent part of yesterday afternoon sorting his kit while Ktrmit and several of the men went to try their luck with the rifles. An old settler, who seemed to take a liking to Kermit, offered to show him a likely place for good sport. They succeeded in bringing down one buck.

Colonel Roosevelt's first hunt was favored by fine weather and he enjoyed the experience immensely. He bagged two wild beasts and a Thompson gazelle. In one respect Mr. Roosevelt was somewhat disappointed, as he had been anxious to secure a Grant's gazelle, whose massive horns are much sought after for trophies. The hunt lasted several hours and all the members of the party were well tired out when they returned to the camp.

Smallpox is prevalent at Nairobi, and two cases have developed among the porters at Capiti. These have been quarantined and the strictest precautions are being observed to prevent a spread of the disease among those attached to the Roosevelt party. The danger of this is now considered slight. The police still maintain their measures for the protection of the Americans from annoyance. They will not permit any, except those designated by Colonel Roosevelt to go with the expedition.

NEGRO PAYS THE USUAL PENALTY FOR HIS CRIME

BIRMINGHAM, Ala., April 26. — A small crowd of men seized a negro who was being taken to jail in Bessemer late last night and hanged him to a tree in the woods. After the lynching the crowd quietly dispersed, leaving the body to sway in the wind last night. The negro, John Thomas, had been arrested on a charge of criminal assault on Mrs. Patterson near Harkwood yesterday. He was found near the scene of the crime and his captors, numbering a dozen, took the negro before Mrs. Patterson, who identified him. Thomas finally confessed to the crime but asked the men to spare his life. The response was a rope and he was soon swinging to a tree.

CUSTOMS REVENUE SHOWS AN IMMENSE INCREASE

MONTREAL, Q., April 26—The customs collections for April are already over $300,000 more than for all April last year. Robt. White, Collector of Customs, says that he is convinced that each month will show a like or greater increase now.

Lee Chu is safe. The Pharmacenical Association has had enough and will drop the case as the expense of bringing him back from Halifax after a legal fight would be too great. They notified the detectives today to drop the case.

POOR OUTLOOK FOR BOXING PROMOTERS IN NEW YORK

NEW YORK, April 26—Believing that the frequency with which boxing bouts are being held in this city, will arouse further opposition to the fighting game and cause the police to continue their raids of boxing clubs, the management of the Fairmont Club has postponed for a week the ten round bout between Freddy Welsh, of England, and Johhny Frayne, of California. The action of the Whirlwind Club in closing its doors is believed by fistic followers to indicate that the activeness of the police have made boxing unprofitable.

SLOW WORK GETTING JURY IN THE HAINS CASE

FLUSHING, N. Y., April 27—The work of compiling the jury at the trial of Captain Peter C. Hains, Jr., for the killing of Wm. E. Annis at the Bayside Yacht Club last August, was resumed before Justice Garretson in the Supreme Court today. Seven jurors had been selected out of 348 talesman examined during the five days of court last week. It is expected that several days will be required to fill the jury box.

Changes in weather are annoying, but changes in the style of jewelry are attractive. Walter H. Irving, the jeweler, 55 King St., watches for all new ideas and is always ready to meet the wishes of customers.

BOSTON, April 26.—The police are trying to locate a girl answering the description of Adele Boas, the 13-year-old daughter of Arthur E. Boas, the wealthy silk manufacturer, who disappeared from New York on Friday last. The girl, whom the police are looking for, obtained work in a Charleston restaurant yesterday, but failed to appear today.

Synopsis of Canadian Northwest Land Regulations.

Any person who is the sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price $3.00 per acre. Duties.—Must reside six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price $3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth $300.00.

W. W. CORY

Deputy of the Minister of the Interior.
