Awful Fate of Fireman Caught in Train Wreck---Runaway Cars Crashed Into Fast **Express---Many Passengers** Had Narrow Escape.

TORONTO, July 30—Three cars of live stock broke away from a shunting engine at Mimico early this morning and tore down the grade, gathering momentum every second and met the G. T. R. express which left Toronto at midnight, with the Muskoka pas-

sengers returning to Buffalo, which was running under good speed. The crash was a terrific one, demolishing the big Mogul engine, and pitching the cars from the track. Engineer Lynch jumped and received serious injuries. Fireman Kenneth Campbell, 123 Spadina Avenue, had not time to escape, his body was buried beneath the engine. A fire which followed the wreck became so fierce it was impossible to rescue Campbell and he was slowly burned to death. Fifty or more passengers on the train were not hurt beyond a shaking up. The train was slower than usual, being under orders not to go more than 30 miles an hour, owing to warning given by washouts at points east of where the accident happened. Otherwise the loss of life would have been great.

Engineer Lynch was brought to the

Mr. Vaughan, although badly shaken up and covered with bruises, escaped without serious injury. He was not a participant in the tour for the Glidden or Demling trophies, but had come here to participate in the hill climbing contest tomorrow, and was testing the grade up Crawford Notch Hill in participation for that event. He estimated that he was travelling at the rate of forty miles an hour when the acident happened. No one was in the car with him at the time.

# IN NEW BEDFORD

NEW BEDFORD, Mass., July 29—with all lines running with a full complement of cars, and only one line, that on Purchase street, guarded by policemen, there was little to indicate that a street railway strike was in progress today except that the number of people patronizing the cars were much smaller than on the previous Sunday. The only line that had anything like the normal Sunday traffic was the Fall River line and even this route was not crowded.

There was not crowded.
There was not the least semblance of a disturbance throughout the day in any section of the city.

Mayor Thompson said tonight that he had done all in his power to bring about an agreement but without success and he indicated that he had no idea what more could be done in that direction. The mayor said he had not received a visit from a committee of the Merchants Club, though it has been reported that such a committee was to be sent to interview him, the purpose being to see whether the fast running of cars by strike breakers could not be prevented.
