

would do their duty, rum would be banished. This he forcibly illustrated by referring to the doings of Christian workers in several different places.

Rev. J. L. Phillips said: If a physician in this day prescribes spirits, he is behind the times. While speaking, some of the ladies sent him a piece of paper with the word *Tobacco* on it. The Dr. then said: Tobacco has a wonderful influence on the health. Almost all drunkards are tobacco users.

The Moderator made same good remarks.

The Report of the Committee on Sabbath Schools was called for, and read by Rev. S. N. Royal, Chairman of the Committee, as follows:

Your Committee on Sabbath Schools feel grateful to the Good Shepherd for the power for good he has made the Sabbath School; for the many in the Church who are engaged in its work and enjoying its benefits; and especially for those who have been brought to Christ from its ranks, and have entered the Church.

We cannot be too careful what we teach. We are thankful that we have a more sure word of prophecy as an infallible text book.

We would commend those adult members of our churches and congregations who, as teachers or students, have entered and remained in the Sabbath School, and would recommend others to "do likewise."

We advise parents, by example, to encourage those "fellow laborers" in their work of love.

To bring a child to Christ, you prevent, by God's grace, their stepping into and walking in the ways of sin. You also develop their better natures as they are brought into communion with Christ and His Word.

"Blest work the youthful mind to win."

Hoping the children may be saved, the youth converted, the faithful laborers encouraged and multiplied, those who are without gathered in to be of one fold and one Shepherd, we remain,

Yours for Christ and the children,

S. NASON ROYAL,

EDWIN MORINE,

B. B. WOODWORTH,

Committee on
Sabbath Schools.

Received and referred to Sabbath School Convention:

The Report on Education called for, and read by Rev. J. L. Phillips, as follows:

Whereas there is a great lack of labourers in our Home and Foreign Mission fields; and whereas the demand for an educated Ministry is becoming more and more imperative in our times: therefore—

1. *Resolved*, That this Conference recommend that each Pastor, preach on this subject at least once a year to each congregation to which he ministers.

2. *Resolved*, That we earnestly request all our brethren and sisters to offer up much prayer in behalf of the young men now studying for the Ministry, and that we recommend our churches to set apart one day of each year for special prayer for the schools and the conversion of the young men and women.
