

which now amounts to £1487 8s. 9d. It will also be observed that there remains at the credit of the Charitable fund £43 2s. 5d. a small sum considering the prospect of heavy demands on the Society during the winter. Your committee would again urge on members the necessity of making good the arrears due, which now amount to a considerable sum.

During the year there have been added to the Roll of the Society the names of 13 gentlemen, of whom 6 are Life and 7 Ordinary Members, and 9 Ordinary have been transferred to the Roll of Life Members. Your committee have pleasure in noticing the increased desire for Life Membership, a system from which the funds of the Society have already derived incalculable benefit.

Since the last Annual Meeting it becomes the painful duty of your committee to report the death of Messrs. Wm. Dawson, J. R. Eckart and John Shaw, all life members. The Society has also to deplore the loss of another member, one of the oldest citizens of Quebec, John Jones, Esq., who was born at Sorel in 1797.

Arrangements are about being made with Mr. Felix Morgan for the erection in the Cathedral of a monument to the memory of the late Robert Symes, Esqr. The cost thereof will be defrayed by the members of the Society by subscription, in accordance with the resolution to that effect adopted last year, and which is now in course of collection by the Committee then appointed for the purpose.

The whole respectfully submitted,

J. H. CLINT,
President St. George's Society.
