#### With Three-Point Suspension Springs New Overland 4 Seems to "Sail Over the Roads"

THE new Three-Point Suspension Springs of Overland 4 permit the wheels to go up and down but protect car and passengers from ordinary road jolts.

Bumping, twisting, swaying and vibrating are wonderfully lessened.

The springs of Overland 4, attached at the ends of a 130-inch Springbase, give the riding comfort and road steadiness heretofore possible only with cars of long when ise and great weight, yet Overland 4 returns the light weight and economy advantages of 100-

Three-Point Suspension Springs protect the car from the hammering and wear of road blows. They lengthen its life and reduce upkeep costs.

Equipment of Overland 4 is dependable and complete from Auto-Lite Starting and Lighting to Demountable Rims.

250,000 m les of test have made the strength

and endurance of this car a matter of record.
