

IN THE SHADOW OF DEATH.

The Condition of Many Young Girls in Canada.

Pale Faces and Bloodless Lips—Given to Headache—Extreme Weakness, Heart Palpitation and Other Distressing Symptoms—The Means of Cure Readily at Hand.

From the Leamington Post.

The attention of the Post has lately been frequently called to a remarkable cure in the case of a young girl living within a few miles of this town, whose life was despaired of, but who was completely cured in a short space of time by the most wonderful of all remedies, Dr. Williams' Pink Pills. Since reading in almost every issue of the Post of the cures effected by the use of this medicine, we felt it to be a duty we owed to investigate this case which has so urgently been brought to our notice, and we are sure the interview will be read with interest by thousands of young girls all over Canada, as well as by the parents of such interesting patients. The young lady in question is not anxious for notoriety, but is willing to make her case known in order that others who are similarly afflicted may have an opportunity of being equally benefited. The

symptoms in her disease differed in no way from those affecting thousands of young girls about her age. She was suffering from extreme weakness, caused by an impoverished condition of the blood, and her chances of life seemed to grow less every day. The best and brightest, fade away as well as others, but when we see a young girl of sixteen years, who should be in the best of health, with cheeks aglow with the rosy flush of youth, and eyes bright and flashing, just the opposite, with 'sallow cheeks, bloodless lips, listless in every motion, despondent, despairing of life with no expectation or hope of regaining health and with only one wish left, that of complete rest physical and mental, we think it one of the saddest of sights.

In the quiet little hamlet of Strangfield, in Essex County, just such a case was presented to the sorrowing eyes of loving friends a few months ago in the person of Miss Ella Beaton, who frequently said she did not care how soon she died, as life had no charms for her. To our reporter she declared that life had become a burden, but after suffering in this way for months, and after trying all sorts of remedies prescribed by physicians or furnished by friends from some cherished recipe handed down from some grandmother, but without being benefitted in the least, she was at last persuaded by a neighbor to give Dr. Williams' Pink Pills a fair trial; but she had tried so many remedies without getting relief that she still refused for some weeks. However, after repeated urgings by her parents and friends she began the use of the pills. Before one box was taken she experienced some relief, and after a few more boxes had been taken, she was restored to perfect health, and there are few young girls now who enjoy life more. She says she owes her life to Dr. Williams' Pink Pills, and is willing that all the world shall know it. Her case attracted much attention and her perfect recovery has created much comment.

The facts above related are important to parents, as there are many young girls just budding into womanhood whose condition is, to say the least, more critical than their parents imagine. Their complexion is pale and waxy in appearance, troubled with heart palpitation, headaches, shortness of breath on the slightest exercise, faintness and other distressing symptoms which invariably lead to a premature grave unless prompt steps are taken to bring about a natural condition of health. In this emergency no remedy yet discovered can supply the place of Dr. Williams' Pink Pills, which build anew the blood, strengthen the nerves and restore the glow of health to pale and sallow cheeks. They are a certain cure for all troubles peculiar to the female system, young or old. Pink Pills also cure such diseases as rheumatism, neuralgia, partial paralysis, locomotor ataxia, St. Vitus' dance, nervous headache, nervous prostration, the after-effects of influenza, influenza and severe colds, diseases depending on humors in the blood, such as scurvy, chronic erysipelas, etc. In the case of men they effect a radical cure in all diseases arising from mental worry, overwork or excess of any nature.

Minards Liniment Cures Burns, etc.

A learned professor was in Edinburgh one wet Sunday, and, desiring to go to church, he hired a cab. On reaching the church door he tendered a shilling—the usual fare to cabbies, and was somewhat surprised to hear the cabman say: "Two shillings, sir."

The professor, fixing his eagle eyes upon the extortioner, demanded why he charged two shillings.

Upon which the cabman duly answered: "We wish to discourage travelling on the Sabbath as much as possible, sir."

NO MISTAKE.

About Ryckman's Kootenay Cure.

IT HAS COME TO STAY. Lately Introduced, But Testimonials Are Pouring In.

It Cures Rheumatism. SACKVILLE, N. S. Aug. 25, 1896.

GENTLEMEN,—For nearly a year I suffered severely with Rheumatism and was in such condition that I could not leave my bed for months. I learned of your medicine, Kootenay Cure, from a friend who had successfully used it for Rheumatism, and I concluded to try it. Up to date I have taken five bottles, and as a consequence am up and attending to business. I feel like a new man, and have no hesitancy in recommending the medicine, Ryckman's Kootenay Cure, to anyone suffering from Rheumatism.

I remain, most respectfully yours, Geo. F. Wallace, Proprietor Brunswick House.

For sale by T. L. HARVEY, Wolfville.

Which? Sir Isaac Newton was a great philosopher. He wrote many learned works on natural science and has ever since been regarded as a most reliable authority. He was also a devout and humble-minded Christian, and he also wrote a work on the prophecies of Daniel and Revelation. In this work he makes this singular remark:

"If these prophecies were true it would be necessary that a new mode of travelling should be invented. The knowledge of mankind will be so increased before a certain date or time terminated, namely one thousand two hundred and sixty years, that they would be able to travel fifty miles an hour." Now as he wrote these words more than one hundred and fifty years before railroads and steamboats were known, they were considered very bold words. Voltaire, a French laicist of great fame, got hold of these words and said: "Now look at the work on the prophecies of Daniel and Revelation. In this work he makes this singular remark: 'If these prophecies were true it would be necessary that a new mode of travelling should be invented. The knowledge of mankind will be so increased before a certain date or time terminated, namely one thousand two hundred and sixty years, that they would be able to travel fifty miles an hour.'" Now look at the work on the prophecies of Daniel and Revelation. In this work he makes this singular remark: "If these prophecies were true it would be necessary that a new mode of travelling should be invented. The knowledge of mankind will be so increased before a certain date or time terminated, namely one thousand two hundred and sixty years, that they would be able to travel fifty miles an hour."

In the quiet little hamlet of Strangfield, in Essex County, just such a case was presented to the sorrowing eyes of loving friends a few months ago in the person of Miss Ella Beaton, who frequently said she did not care how soon she died, as life had no charms for her.

IF YOU SUFFER

The Fault is Your Own.

Paine's Celery Compound Earth's Only Cure For All Forms of Rheumatism.

Hundreds of twinges of pain and hours of agony every day; weeks and months of helpless suffering and still you go on from bad to worse, until you become crippled and deformed. If you are a constant martyr to rheumatism and its tortures, the fault is your own. You might easily have avoided all the agonies of past days and nights, had you used Paine's Celery Compound. You can plead the excuse that you did not know of such a disease-conquerer and healing medicine. You surely have heard your friends speak of it. The newspapers have heralded thousands of victories won by Paine's Celery Compound over rheumatism, and if your physician has failed to tell you of the great modern rheumatic cure, he has kept the truth from you for his own benefit.

If you are now in agony, you are certainly in peril. You must to-day give up experimenting with useless medicines and use a truly scientific remedy like Paine's Celery Compound, which will surely remove the cause of your suffering, and permanently cure you. You are not by any means in a hopeless state. Be assured, Paine's Celery Compound will deliver you from your present bondage of agony. No other remedy has ever stood the test of your standing your past failures with nervines, sanaparillas, bitters and pills. Paine's Celery Compound will give you the new yet discovered can supply the place of Dr. Williams' Pink Pills, which build anew the blood, strengthen the nerves and restore the glow of health to pale and sallow cheeks. They are a certain cure for all troubles peculiar to the female system, young or old. Pink Pills also cure such diseases as rheumatism, neuralgia, partial paralysis, locomotor ataxia, St. Vitus' dance, nervous headache, nervous prostration, the after-effects of influenza, influenza and severe colds, diseases depending on humors in the blood, such as scurvy, chronic erysipelas, etc. In the case of men they effect a radical cure in all diseases arising from mental worry, overwork or excess of any nature.

At Two Hospitals. Five Years in the Toils—Nothing but Dodd's Kidney Pills could touch the Spot.

BRECKEN, Nov. 23 (Special)—Mr. W. P. Jackson, a telegraph operator of this place, has had an experience which should be, when known, of value to every man in Canada. He says:—Without relief for five years, I have gone from bad to worse with kidney disease. Have been treated at two hospitals—Chicago and Montreal,—and took the hot springs course all to no purpose. I have taken doctors' advice and their medicines with the same result. My cure commenced as soon as I started taking Dodd's Kidney Pills, and after taking ten boxes I am happy to say my cure is perfect.

There were plenty of empty seats in the car, but the smiling youth who wore his hat on the back part of his head stopped opposite the handsome young woman in the red hat, and said in his most engaging manner: "Can I take this seat, miss?" "I have no objection, sir," she replied in a tone that froze the smile down on his face. "But I think it's nailed down."

THE WHITE RIBBON.

Health and Heredity—Mrs Trotter. Moore's Meetings—Mrs Hemmick. The Girls' Friendly Society—Mrs Davidson.

Next meeting in Temperance Hall Thursday, Dec. 7th, at 8.30 P. M.

The following extracts are taken from a very full and interesting report of this convention published in the last number of the W. C. T. U. Journal:

Zion Congregational church, Toronto, with its prettily decorated platform, glorious with palms, flowers and banners was the place where the ninth annual meeting of the Dominion W. C. T. U. was held. Mrs A. O. Rutherford, of Toronto, the President with increasing ability and courage, presided in an impartial and sympathetic manner. It is an onerous position for so young a woman but Mrs Rutherford had already won the confidence of the women of Canada in her judgment as well as their sympathy and love. Every Province in the Dominion was represented.

The report of Mrs Tiley, corresponding secretary, showed a decrease in the Dominion membership, the total now being in round figures nearly ten thousand; in addition to 9,959 Band of Hope and Loyal Legion children. The secretary reported the strength of the Dominion W. C. T. U. to be, by provinces, Ontario, 205 unions, 4,585 active members; Quebec, 83 unions, 1,843 active members; New Brunswick, 34 unions, 590 active members; Nova Scotia, 90 unions, and 709 active members; Prince Edward Island, 12 unions and 170 active members; British Columbia, 11 unions and 876 active members; Manitoba, 22 unions and 390 active members; and the North West Territories, 7 unions and 129 active members; and that in the Dominion there are 404 unions, 8,723 active and 1,026 honorary members.

Mrs Tilton, treasurer, reported that the receipts had been \$1,550, including the balance from the previous year, the expenditures leaving a small balance to go forward.

In Legislation and Petition department it was shown that police matrons had been petitioned for in Vancouver and Victoria, amendments to the women's property act were asked for, also the legislation necessary to provide for the ringing of the Curfew bell. Appeals were made for the election of prohibitionists before the last general elections. Quebec has gained the appointments of two women factory inspectors and petitioned for women on the school boards and against the sale of tobacco to minors, and secured a site and free rate for a drinking fountain in Quebec city in honor of Mrs Middleton. Two women will be appointed on the school boards of cities and incorporated towns in New Brunswick, instead of one as formerly.

The New Brunswick license law has been amended so that a would-be liquor seller must have a majority of names to a petition, instead of one-third as formerly. A notable fact in the appointment of Mrs A. B. Britten, the provincial recording secretary of the W. C. T. U. of that province, to the position of county alms' house commissioner—the first time a woman has been given such a distinction in the Maritime Provinces.

Miss Stirling, formerly a prominent W. C. T. U. worker in Kings County, Nova Scotia, but now of Philadelphia, was given an opportunity to tell a strange story of the wrongs to which she charges that she has been subjected by the lawless element of Kings Co., N. S., and at the hands of the government. Miss Stirling stated that it became her duty to lay information against two scoundrels who had caused the death of a young girl; her large double house which was chiefly used as a home for Scotch children, three hundred of whom from time to time came to Canada) was burned to the ground, and the authorities refused to guarantee her protection if she remained in the locality. She declared that owing to her activity in temperance work the politicians backed up the criminal element against her and had driven her away. Miss Stirling said that she had not made the matter public before because she had been requested not to do so by the late Dominion government in the person of the Minister of the Interior.

The report of committees on plan of work recommended the following: That each provincial president be asked to urge upon their respective unions the necessity of using every means in their power to arouse public sentiment in favor of prohibition; that from now until the campaign is over the placards shall be made a subject of constant public and private prayer; that the Evangelical alliance be asked to place the subject of temperance on the topics of the week of prayer; that clergymen and Sunday-school superintendents be asked to make Sabbath observance the subject for the first Sunday in April.

Minards Liniment relieves Neuralgia.

DODD'S KIDNEY PILLS Any POISON in blood is sure to do havoc somewhere. The only Preventive is sound kidneys, the only Cure, kidney medicine, the only Medicine is Dodd's Kidney Pills.

"Slater Rubberless Shoe." For sale by C. H. Borden, sole agent for Wolfville.

You'll enjoy the Winter through all its varying moods if you have your clothing interlined with Fibre Charolais. This wonderful fabric is so light that you never realize its presence in a garment till you get out into the wind and cold, then you realize that you are really warm even though the lighted Fibre Charolais is completely non-conductor of heat and cold, and the strongest winter garment you can wear. This explanation and the fact that it sells for 25c a yard gives the whole story, and easily proves that for health and comfort's sake you can't afford to do without it.

Granby Rubbers. It is no wonder that rubbers, which are not the same shape as the foot, should be uncomfortable. It costs money to employ skilled pattern makers but the result is a satisfactory fit. Each year new patterns are added, to fit all the latest shoe-shapes, and Granby Rubbers are always "up-to-date." They are honestly made of pure rubber, thin, light, elastic, durable, extra thick at ball and heel. Don't Draw the Feet They Fit the Boot
