

	PAGE.		PAGE.
Manufacture, improvements of....	778	Methods of instruction, consultation	100
Manufacturing, effect of employment in.....	520	Methods of teaching.....	110, 111, 131 132, 146, 158, 159
Marine department, Dr. Waddell's work in.....	2	Methods, original.....	830
Marking of stakes.....	32, 33	Mexico, foundations in.....	801
Marriage, detriment of early.....	517	Mexico, soil underlying.....	801
Marriage of Dr. Waddell.....	3	Mineralogy, in technical courses....	168
Marriage of young engineers, age for.....	517, 832	Mineralogy, relations to civil engineering.....	966
Materials, classification of.....	44	Mining engineering, course in.....	113
Materials for Halsted Street Lift-Bridge, testing of.....	553	Mining, Japanese.....	70
Materials in cutting, quantity of....	43	Missouri River Bridge at Jefferson City.....	7
Materials, measurement of in excavation or embankment.....	45, 46	Missouri River Bridge at Omaha..	6
Materials of engineering, how taught	113	Missouri River Bridge at Sioux City	6
Materials, prices of.....	79	Moment diagrams.....	381
Materials, specifications for.....	910	Moment tables.....	399, 401, 403, 404, 448
Mathematics, branches to be taught	97	Movable bridges, development of....	527
Mathematics, higher instruction in.	943	Movable bridges, difficulty in operating.....	561
Mathematics, importance of....	511, 848	Movable bridges, land damage for..	563
Mathematics, impractical character of.....	827	Movable bridges of the future.....	528
Mathematics in technical courses....	160	Movable bridges over Chicago River	578
Mathematics, methods of teaching..	177	Movable bridges, their interruptions to traffic.....	562
Mathematics, necessity for thoroughness in.....	848	Movable bridges, types of.....	527
Mathematics, need of thoroughness in.....	864	Movable dams for Japanese rivers..	71
Mathematics, practical use of.....	828	Multiple intersection stresses, safety in.....	448
Mathematics, relation to civil engineering.....	961, 964	Multiple intersection trusses.....	334, 390
Mathematics, retention of.....	799	Municipal service for engineers, importance of.....	815, 822
Mathematics, teaching of.....	111, 123	Municipal service for engineers, objections to.....	815
Matriculation, proper age for.....	845, 861	Muskegs, ditches in.....	17
Measurement for payment.....	49		
Measurements of materials in excavation or embankment.....	45, 46		
Measurements, units of.....	911		
Mechanical engineering, definition of.....	958		
Mechanical engineering, instructions in.....	947		
Mechanics, method of teaching....	113		
Medium steel, advantages of using.	593		
Medium steel compared to soft steel.	593, 716		
Medium steel, economy of the use of	593		
Medium steel, higher value of.....	776		
Medium steel, reliability of.....	666		
Medium steel, unit stresses for....	675		
Memoranda.....	515		
Metallurgy, course in.....	947		
Metal, minimum thickness of.....	292, 304		
Metal, weight of in elevated railroads.....	726		
Methods of approximation.....	177, 857		
Methods of calculating, engineers' ideas of.....	432		
Methods of calculation, practical..	827		
Methods of instruction, behind practice.....	90, 99		

N

Naval construction, instruction in..	947
Navigation, obstruction to by rotating draw.....	564
New York elevated railroads, examination of.....	730
New York elevated railroads, faults in designs.....	720
Nickel steel.....	8, 260, 777
Non-technical subjects in engineering courses.....	168
Notebook, entries in.....	36
Notebooks, the keeping of.....	829
Notes, fudging of.....	36
Notes, importance of keeping.....	851
Notes, keeping of by engineers.....	788
Notes, leveler's, on construction..	35, 33
Notes of lectures.....	158
Notes on railroading, publication of.	29
Notes, purpose in keeping.....	521
Notes, transitman's.....	36
Northwestern Elevated Railroad, description of.....	593
Northwestern Elevated Railroad...	7
