

GENERAL GEOLOGY— <i>Con.</i>	PAGE.
Detailed description of formations— <i>Con.</i>	
Perkins group	46
Distribution	46
Lithological characters	47
Andesitic types	47
Macroscopic	47
Microscopic	48
Pyroxenites	49
Amphibolites	49
Structural relations.....	50
Origin	50
Age and correlation	51
Coast Range intrusives	51
Distribution	51
Lithological characters	52
Origin	53
Age and correlation.....	53
Laberge series	53
Distribution	53
Lithological characters	54
Macroscopic	54
Microscopic	55
Structural relations	56
Age and correlation.....	56
Tantalus conglomerates	57
Distribution	57
Lithological characters	57
Structural relations	58
Age and correlation.....	58
Chieftain Hill volcanics	59
Distribution	59
Lithological characters	60
Macroscopic	60
Microscopic	61
Origin	63
Age and correlation.....	64
Carmack basalts	64
Distribution	64
Lithological characters	65
Origin	65
Age and correlation.....	65
Kluska intrusives	66
Distribution	66
Lithological characters.....	66
Occurrence	67
Age and correlation.....	67
Wheaton River volcanics	68
Distribution	68
Lithological characters	68
Macroscopic	68
Microscopic	69
