<sup>1</sup> Jebb's editions of the several plays have been most helpful.

<sup>2</sup> Sandy's *Bacchae* has been very suggestive, and Nauck's introduction to Euripides very helpful. Beck's index is faulty, and I have had to do much index work for myself.

<sup>3</sup> Especially Kock's "Die Frösche."

<sup>4</sup> All the references are to this edition, except in two or three instances where the numbering of Dindorf's Lexicon for Aeschylus and Ellendt's for Sophocles is given.
