

The French five-franc piece coined before 1841, in tale for any amount at 4s. 8d.

The British crown at 6s. 1d. currency; which, and other descriptions of British coin lawfully current in Great Britain and Ireland, of proportionate weight, and for proportionate sums to the amount of £2 10s. currency, and no more.

The Governor General can by proclamation include among legal tenders the more recent coinages of those nations of the values specified, having verified their pureness by assay.

£100 sterling is equal to £121 13s. 4d. currency, and is deemed par of exchange.

To bring sterling into currency, add 1-5th to the sterling amount and 1-12th to the 1-5th; and to reduce currency into sterling, multiply by 60 and divide by 73.

The basis of the currency is the imperial gold standard, differing from sterling money in the different nominal value of the pound and its constituents.

The pound sterling is by law fixed at *Twenty-Four Shillings* and *Four-Pence* currency. At this rate all large transactions are settled, and remittances, with the correction of the day for exchange, are calculated.

One pound currency, contains four dollars.

One dollar do do five shillings.

One shilling do do two sixpennies.

One sixpence do do six pennies.

One penny do do two coppers.

The value in sterling of the pound Currency is

rather over..... 16s. 5½d.

The dollar currency rather over.... 4s. 1¼d.

“ shilling do rather over.... 9¾d.

“ sixpence do rather under... 5d.

But in retail transactions an approximation is made to the value of the coins current in Britain and the United States, and in small purchases the following are the rates at which such coins are usually taken:
