

INDIVIDUAL COMMUNION SETS

The TRAYS STACKED.

Showing the Interlocking advantage and their imposing and beautiful appearance on the Communion Table.

THE PEERLESS INDIVIDUAL COMMUNION SERVICE.

Noiseless—Sanitary—Reverent.

IT IS NOISELESS.

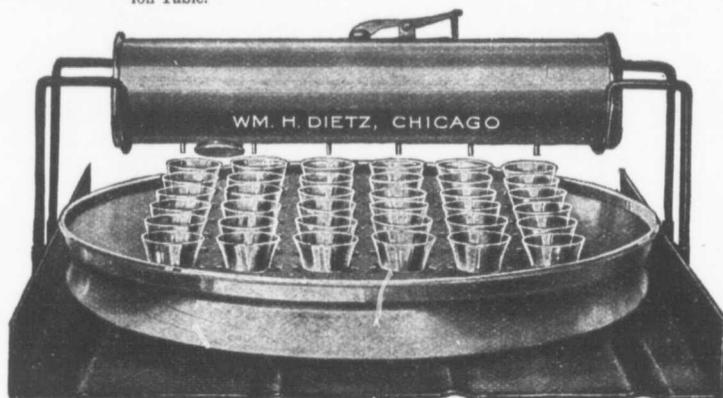

Every cupholder is cushioned with rubber, so that there is no clinking when the glasses are replaced.

THE TRAYS ARE INTERLOCKING

and therefore dust-proof. The interlocking also means that trays rest one on another instead of on glasses of tray underneath.

THE CUPS ARE IMPROVED SHAPE.

They empty at an angle of 45 degrees. No need of tipping back the head when taking Communion.

THE PEERLESS FILLER.

The Peerless Filler is automatic, filling simultaneously a row of five or six glasses evenly and without spilling. The filling is done before the service begins. A single touch of the spring for each row of glasses is all that is required.

FREE TRIAL OFFER.

A complete outfit large enough to serve your entire congregation sent on trial upon request. In ordering give date of your next Communion Service, and specify clearly the quantity and style of trays desired.

Send for Illustrated Catalogue of Communion Ware. It will tell you all about it.
