

International, Mogul and Titan Kerosene Tractors

THESE are tractors developed through twelve years active field work in every civilized country in the world. A size and type for every farm.

All of them operate successfully on kerosene and other low grade fuels down to 39 degrees Baume.

All of them are fully equipped to do both field and belt work.

They are sold by a company that knows farmers' needs and that also sells implements and machines to be operated by the tractor, assuring proper combinations of tractor and tractor power machines.

These are tractors that have long been successfully filling the need for power on thousands of farms. One of our Canadian branch houses is near you to help the dealer take care of your service needs. Write the address of the branch nearest you, named below, for full information about **Mogul, Titan** and **International** kerosene tractors. This is the proper time, of all times, to be supplied with real power.

International Harvester Company of Canada, Limited
