Temporary Swellings.

I have been driving a colt since last fall. A few weeks ago, two swellings appeared on back, where the back-pad rests. I applied liniment, and they disappeared. One then formed on his withers, but it also yielded to treatment. Now, another has appeared at the seat of the first.

V. S.

Ans.—These are caused by friction of the harness, or bruises from some cause. Treat this one as you did the others, and arrange the harness so as to avoid friction. As he appears predisposed to this trouble, give him a purgative of 8 drams aloes and 2 drams ginger, and follow up with 3 drams nitrate of potassium twice daily for two days. V.

Rupture.

Aged horse fell on small stump. When he got up there was a lump half the size of a man's head on his flank.

H. A. S.

Ans.—This is called ventral hernia, or rupture. He fell with such force that the stump forced the skin through the abdominal walls, and allowed the escape of a portion of the intestines. Treatment is often unsuccessful. It consists in casting the patient, cutting through the skin, returning the intestine, stitching the opening in the abdominal wall, then stitching the wound in skin, applying a bandage around the body, and dressing twice daily with an antiseptic. It requires a veterinarian to operate. The horse may live for years and work well as he is, while at any time, due to severe muscular exertion, the opening may enlarge and make matters worse. V.

Miscellaneous.

Species of Sweet Clover.

1. In your issue of February 20th, we noticed an article relating to "Sweet" or "Bokhara" clover, written by C. Witts. We have been inquiring from our seedsmen, and he tells us there are two kinds, the white and yellow blossom. Could you give us any information as to which kind would be the better?

2. Do you think this would be a profitable kind of clover to sow?

3. Where could we get reliable seed?

D. C.

Ans.—1. There are two species of sweet clover, viz., *Melilotus alba* (white-flowered sweet clover), and *Melilotus officinalis* (the yellow-flowered). *Melilotus alba* is also called Bokhara clover, and is, we believe, the species favored for cropping purposes.

2. We are not much enamored of sweet clover as a crop, except as a means of soil improvement. If, for instance, we had a washy, clay hillside, which we wished to put under a leguminous crop, or a poor field on which it was difficult to get a stand of ordinary clover, we would try sweet clover. There is no doubt but that cattle can be taught to eat it, and do fairly well upon it, but as a feed crop, we prefer red clover or alfalfa.

3. Seed may usually be obtained from one or more of the seedsmen regularly advertising in these columns. Write them.

Veterinary Books.

Could you give me the name of a good, reliable, moderate-priced book, on diseases of domestic animals, the horse in particular, with remedies?

R. T. W.

Ans.—"The Farmer's Veterinary," by C. W. Burkett, may be had through this office at \$1.50, postpaid; or "Veterinary Notes for Horse Owners," by Capt. M. H. Hayes, at \$4.

Clydesdales in Quantity and Quality

ORMSBY GRANGE STOCK FARM, Ormatown, P. Que.

As I am feeding no steers this winter I have filled my stables with imported fillies, selected personally in Scotland; many in foal to such sires as Hiawatha, Sir Hugo, King's Champion, Sir Rudolph, etc. Fourteen have been sold, eighteen of the best are still on hand—the selections being made more on account of price than superiority. There are no culls in the lot. Send for pedigrees and particulars before buying elsewhere. Inspection invited.

TRANSIT
Insurance

HORSES and cattle shipped to the Western Provinces or elsewhere can be insured under short term Policies of 5, 10, 15, 20, 25, 30 days to cover the Railroad transit and a few days after arrival. These policies cover the Owner against loss by Accident or Disease and only cost a few dollars per carload.

Losses are heavy on Live Stock shipments on account of injuries sustained in cars through rough shunting, trampling, ear fever, etc. not to mention numerous other causes resulting fatally a day or two after landing at destination. We cover both on board car and after arrival, some other companies do not cover after arrival. Insure with us and get the most for an equal premium. Do not take any chances with others.

All kinds of live stock insurance transacted. Write us for particulars and name and address of nearest agent.
