## THE MINING REVIEW

THURSDAY ...... March 8, 1900

Nearly Forty Working Properties in and Around the Camp.

STRIKE ON NORWAY MOUNTAIN

Ore dipments to Date-War Eagle Machinery in Place-Repairs Being Made on the Le Darlington on War Eagle Values.

of the general manager of the B. A. C. about a fortnight, and until they are con-

irritation among the miners. The mine looked upon as closed.

Ine further details of the annual meet-Consolidated company, held in Toronto, which came to hand early in the week, helped somewhat to dispel the impression created by Mr. Kirby's report. Both Mr. Wayne Darlington and Mr. J. B. Hastings, in their reports, which were read at the meeting, refer to the increased values obtained in the 750 level. The former stated: "The great increase in values in the ore chute at the 750-foot level over the two hoist has been duly installed ture, and adds strength to the belief wat the ore chute will be found continuous in low," and Mr. Hastings added: "\_ne

stope above the 750-foot level is a most encouraging feature. Meeting the ore in the shaft at this level shows the continuity of the great ore chute which has yielded to the values recently obtained, Mr. Hastings reported that "when the main shaft reached the 750 level, ore was encountered averaging for six feet in width, \$25 to \$60 per ton gold. Two bundred and eigntyit is credited on our records with a gross is being stored either in the stopes or on market value per ton of \$22.64 and \$18.50 the surface. respectively, but the ore was produced in 95 gold. The average value of mine samment work is proceeding. ples from the same place since then or

Regarding the number of men employed in the camp proper and the district directly tributary to Rossland, it might be well for those who feel at all nervous concerning the immediate future of the camp, to note the appended incomplete ist of mines at present being actively worked in the section referred to. They include the following 38 properties: Lvening, Arthur, Douglas, Portland, Velvet, mine of considerable merit. Wallingford, Anaconda, 1. X. L., O. K., Mountain Trail, Union Jack, Big Four, California, Giant, Jumbo, Ethel, Heather Bell, Norway Mountain, Cascade, Royad Gold, Gertrude, No. 1, Josie, Le Roi, White Bear, Sunset No. 2, War Eagle, Centre Star, Green Mountain, Iron Mask, New St. Elmo, Iron Cort, Columbia-Koot-
