Among the annual reports submitted so far this year, one of the most intersting available is that of the Sun Life Assurance Company which is now celebrating with pardonable pride, its fittieth anniversary. Apart altogether from its unique record in insurance an nals of Canada of \$106,000,000 of new business written up during the past en visiting her danghter, Mrs. G. S. year, a test from the actual figures as furnished by decades shows the remarkable affect of a momentum such as the Sun Life has gained in this country, and indeed in sources of other countries of the world, where it has branched out with results fully as impressive an in the case of Canada, the place of its birth.

Taking the year after its foundation 1872, it is seen that the income was \$48,210; its assets \$94,461; and life insurance in force, \$1,064,350. Eight years later the income increased to \$141,000, the assets to \$473,000 and the insurance in force to \$3,897,000, roughly three, five and four times as great respectively. The next ten years showed totals that ran far ahead of these "times" for the income was eighteen times that of 1872; the assets twenty-five times, and the insur-Mrs. S. N. Banks attended the dance ance in force about sixteen times Twenty years later the income was 180 times the original, assets nearly four hundred times, and insurance in force one hundred and forty times that of 1872. Coming down to the year just passed it is seen that the original amount of income of \$48,000 has expanded to \$28,751,000; the assets of \$96,000 to \$114,839,000 and the Major (Quartermaster) H. Carvell insurance in force of a little over retired and is permitted to retain \$1,000,000 is now over \$486,000,000.

where it stands to-day with its reconsidered as percentages of growth or as straight totals, for in the annual report for the year 1920 which appears in this issue the whole tone is of a resolve that the year 1921 shall establish figures and records as yet un touched by this life insurance company whose financial strength and progress even apart from its relation to insurance constitute a very real asset to Canada's business before the world.

BE CAREFUL

It is said that apples may be kept two years by wrapping them in news-papers so as to exclude the air. The newspaper must, however, be one on which the subscription is paid in full, or the dampness resulting from the "due" will cause the fruit to spoil. Subscribers are asked to note this yaiuable information. A money order in an envelope with your name and address is like sunshine to us. It removes all the "due."
