WEEKLY REVIEW OF TORONTO WHOLE-SALE MARKETS. WEDNESDAY, June 9.

PRODUCE.

The market has been fairly steady on grain since our last; or more properly we should say that prices of grain to day compare fairly well with those ruling at our last; but flour has shown no recovery from its chronic duliness, and prices have gone on declining. There has been a considerable movement in wheat during the week, but scarcely any other sort of grain has been on the market. Stocks are running low and stood on Moniay morning as follows:—Flour, 5,190 bbis; tall wheat, 133,767 bush; spring wheat, 109,362; oats, 19,600; barley, 2,601; peas, 150, and rye nil bush, against on the corresponding date last year:-Flour, 7,721 bbis; fall wheat, 30,056 bush; spring wheat, 107,132; oats, 17,511; barley, 24,508; peas, 50,657 and rye not bush. Outside advices show in English quotations a fall of 6d on flour; of Id on red and white wheat; of 8d 6d on flour; of 1d on red and white wheat; of 2d on red winter, and of 2d on peas, with an advance of 2jd on corn since our last. Markets during the last three days seem to have been improving, with advances quoted on cargoes for shipment. The trade during last week is said to have been generally unchanged, and the demand at various markets quiet. Still previous prices were well maintained for choice wheats, but barely for secondary. There was a fair enquiry for cargoes off coast for both the United Kingdom and the Continent, but they were held somewhat above buyers' idea. Scarcely any inclination to operate in wheat on passage, or for shipment, was manifested; thus show-ing that little expectation of an advance was felt. Supplies last week were again short of consumption. Home deliveries were 111,424 quarters and imports 220,000 to 225,000 quarters of wheat, and 170,000 to 115,000 barrels of flour, making a total supply equal to 393,299 to 401,111 quarters of wheat, against an average weekly consump-tion of 454,000 quarters, leaving a deficiency of 52,889 to 60,701 quarters. The quantity of wheat and flour in transit decreased 125,000 quarters dur-ing the week, and stood on the 3rd inst. at 2,100-000 quarters against 2,223,000 on the 20th ult. and 1,500,000 at the corresponding date last year.

The total quantity of wheat in sight on this confinent and in transit to Europe on the 22nd ult. amounted to 40,894,000 bushels, against 41,-173,000 in the previous week, and 31,114,-Further cable advices report the appearance and promise of English crops to have improved during last week, leaving the harvest prospects fairly good Continental advices by mail state that in France during the week ending on the 10th ult., a very firm one continued to prevail, and the country markets continued to improve, mostly quoting an advance. In the ports, likewise, there was more activity. Foreign wheats showed an advance equal to that on French grain, as the latter was very scantily offered, in fact, in many parts of she country exhausted; ed, in fact, in many parts of she country exhausted; the demand for foreign had therefore revived, and large purchases been made both off the coast and from America direct; red winter wheat was held at 56s per 480 lbs free on rail at Havre, and 57s 2d at Rouen, and advance of 6d to 1s on the week. The met imports of wheat and flour into France from August 1st, 1879, to April 30th, 1850, are officially given at 6,919,573 qrs, against 7,178,000 qrs in the corresponding period last year. In Belgium, a firm tone with an upward tendency in values prevalled, and at Antwerp a good business was done for consumption at firm rates. The quantity of American wheat on passage to Antwerp was about 90,000 qrs. German advices report the wheat market quiet but closing firmer at Berlin, and part of the previous advance in rye lost. At Hamburg spot wheat was firm, offers of fine dry qualities being very scarce; good red Holstein was quoted at 49 to 51s and choice Saale and Rostock at 58 to 54s per consumption at 3 to 100 cm. The provision of the corresponding to quality.

Salva—Liverpool more abundants and easier; lots of not under 100 barrels to arrive can be had at 50 to 100 cm. Harness close 11st, from 11 to 12s for really fresh.

AN EXTRAORDINARY CASE Nineteen Days Without Food.

The Victoria, B.C., Colonist of the 1 inst. has the following:—A few days at there died at Quamichan, Cowichan di trict, a farmer, one Francois Dencid under circumstances of an extraordinar character. About four weeks since Der cide get it into his head that upon Ascer sion day he would be translated bodily it Heaven, and forthwith began to system atically starve himself, refusing both for and water, after making presents of h stock, farming and cooking utensils, mone furniture, etc., to some neighbours. After a short time the Government agent, M are the Government agent, M are the Government agent, M are the Government agent. Fry, wrote down to the Government representing the facts of the case and askir that authority might be sent to comm presenting the facts of the case and askin that authority might be sent to comm the man to the lunatic asylum. This is coincreply was returned:—"Sir,—Lunatasylum full. No room for more patients. The man continued to starve himse after that almost unmolested, except hasome kind-hearted neighbours, who frequently pressed him to take food, but it always declined, and grew thinner an weaker daily. On Ascension day he haseen seventeen days without food or drin of any kind, and composed himself for death, but he lingered two days longer dying on the 19th day. An inquest wa held and a verdict returned of "death from voluntary starvation while in an uniform voluntary starvation while in an uniform the starvation wh from voluntary starvation while an un sound state of mind." The jury added rider complimenting the Company and some state of mind. for his effort to get the man cared for, and

consaring the Government for their heart lessness and neglect. Deneide had resided at Quamichan fifteen years, and was native of France, aged 50 years. Originally he was a Roman Catholic, but recently embraced the Protestant religion,
