One Employment Agency for All Canada

THE Dominion and Provincial Governments are co-operating to distribute employment quickly and fairly.

In all, some 60 Employment Offices are being established. They will be located in all centres of 10,000 people and over—and wherever the need for them exists.

Through these Government Employment Offices, all persons in need of employment, both male and female, will secure such positions as are available.

Through this same source an employer's particular needs will be promptly filled.

Indeed, the service rendered by these Government Employment Offices will be such as to warrant the heartiest co-operation and support on the part of employers of labor.

They will endeavor to supply only such help as an employer can confidently take on—the right man for the right position.

Thus, to the small employer of labor, they will take the place of the Employment manager. To the large employer of labor they will be of appreciable assistance.

The service of the Employment Offices will be given both to employers, and to those who seek employment entirely without charge.

How They Work.

A superintendent is in charge of each local Employment Office.

Inside the office he has interviewers, to confer with those seeking employment and to direct them to positions.

In the larger cities he also has canvassers or salesmen to call on the employers and show them the value of the services rendered by the Employment Office.

In this way the work-seeker and the work-giver are quickly brought together.

Every effort is made to secure up-to-date, business-like offices, conveniently located.

For the Soldier.

The same Employment Offices are used to provide positions for returned soldiers as well as for every other person in need of employment.

In each employment office there is a representative of the Department of

BABY'S HEALTH

IN THE SPRING

The Spring is a time of anxiety to mothers who have little ones in the home. Conditions make it necessary to keep the baby indoors. He is often confined to overheated, badly ventilated rooms and catches colds which affect his whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach and bowels working regularly. This will prevent colic, constipation or colic and keep baby well. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

With the completion of this single chain of Employment Offices the Government will be exactly informed on employment conditions.

Expert field agents will call on the lumbering, mining, shipbuilding and other industries to secure information as to anticipated requirements for labor.

Weekly reports sent in by trade unions provide additional information.

Finally, every concern with 25 or more employees will mail each week a post-card showing (a) the pay-roll of the previous week; (b) changes in staff and the nature of the occupations.

Each local superintendent in the larger cities will be assisted by an advisory body composed of employers and employees.

Each province will have a similar advisory body.

There will also be a Dominion body—the Employment Service Council of Canada—to co-operate with the Department of Labor. This council will be composed of representatives from all those classes interested.

In addition to the above, the Government is co-operating with those who provide employment—so that as far as possible every willing worker will have work to do.
