Your Boys and Girls.

In the darker ages of motherhood, abies were literally deprived of air. To the fact may be treated part of the white plague curse of to-day. This is a fresh air stage. But this does not mean that a mother should go to extremes in the supplying the air her baby needs, nor in hardening its body. as some faddists maintain. The baby should not be chilled or exposed to a direct draught, but the air in the room should be cool and pure, not hot and fetted.

In this one respect, strangely, enhouses uniformly heated by steam or The full dres suit was brought over furnace and easily ventilated. The are places of refuge for the entire late Thomas S. Keats, J.P. family, and they are kept too hot; often every window is closed tightly

wear with the pretty gingham frocks.

and their air is sadly vitiated.
