Ladies' Hats

We have just received a clearing line in Ladies' Straw Hats in newest American styles, and despite increased duties can offer you Hats

At Half the Price

at the opening of the season. All other Hats at present in stock are also reduced.

You can add greatly to your dress by having a greater variety of Hats. Our Hat Pricing now, and at other times, enables you to do so, for here you can always buy a good hat in the very latest style for very little money.

It is our opinion that many ladies expend too much money on Hats and get very little for their money.

They sometimes put too much money into one hat. We want to emphasize that they never do that in this store, though our Hats are of the finest quality and right-up-to-the-minute styles.

Boys' Suits

We have been fortunate in picking up a line of Boys' Suits much under manufacturer's costs. We are giving our customers the fullest advantage of this purchase by making

Household Notes.

Umbrellas should be washed occasionally. Stand them, open, in a bathtub, scrub with a small hand brush and rinse with a bath spray.

When iodine has been spilled on clothing thoroughly, soap the spots with a good white laundry soap and let it remain in cold water for a few hours.

For apple snow bake 7 large apples, rub through a sieve, add 1/2 pound of sugar, a little essence of vanilla and the well-beaten whites of 2 eggs.

Perfectly clear cold coffee will renovate black silk nicely. Apply it to the right side of the silk, which should be ironed on the wrong side when half dry.

To make apple and custard pudding, put some stewed apples in a pie dish and when cold pour over them some cold boiled custard. Cover with meringue and brown in oven.

Lamp chimneys can be quickly cleaned by holding the head over one end and putting the other end over the spout of a simmering teakettle. Rub at once with tissue paper.

When mixing a sponge cake, do not stir the batter after the whites of the eggs are added, but carefully fold the batter over and over, enveloping as much air as possible into the batter.

Printers' War in Toronto

Employers Train Stenographers to Take Place of Strikers.

TORONTO, June 10.—In connection with the strike of union printers, pressmen and bookbinders in this city, the employing printers' organization, the Toronto Typothetical to-day began to train men and women to take the places of the strikers as has been done in some cities in the United States. Stenographers are being taught to operate type setting machines, and it is claimed that they can learn to operate the keyboard with skill in three months. Secretary Sutherland, of the Typothetical claimed that there was an increase to-day in the number of compositors, pressmen and bookbinders at work. The strike committee of the Toronto typographical union announced to-day that it was prepared to fight the employers, having perfected plans to this end. Intimation was given that union printers in other towns and cities would refuse to do work sent from Toronto shops. The bookbinders union claims that there has been no defection from the ranks of the striking bookbinders. The Toronto public library board to-day conceded the 44 hour week to its bookbinders. The question of wages was left in abeyance.

NEXT GAME.

As Friday is a whole holiday a double-header has been ordered by the League. The morning clash will be between the B.L. and Cubs while the afternoon contestants will be the C.E.I. and Red Lions. To the stay-in-town fans this announcement of games will be hailed with delight.

THE A.A.A.

An unsigned communication addressed to the editor of this Column asks what has become of the A.A.A. It is hardly within the province of our Column to answer this enquiry but for the benefit of the enquirer and for the information of the public generally we would say that the Association requested the various Leagues to appoint two of its members to comprise the A.A.A. executive but to date no reply has been received from either the Hockey or the Football Leagues. Messrs. Orr and Chesman have been chosen to represent the baseballers. In the meantime a request has been made to Mayor Goeling for the control of the Parade Ground, and the Council is now awaiting a report from their solicitors as to their powers in the matter. It is of course impossible to have a meeting unless the other delegates are appointed, and it is hoped that this will be done at once. A definite reply from the Council is expected this week.

SCOUT COMING.

We understand that a gentleman prominently identified with Baseball has received an intimation that the Scout from the Bridgeport Conn. team (who play in the Eastern League) is a passenger by the present "Roseland." Since fancy deliveries such as the spit ball, the shine ball, etc., are strictly taboo in the big leagues, there is consequently a great dearth of pitchers with effective curves and good control. It is not unlikely therefore that some overtures will be made one or two of our local boys to try their luck in fast professional company.

THE JUNIORS.

"Babe Ruth Jr." wants to know if it is the intention of the League to promote the junior leagues again this season. Perhaps President Orr, or Messrs. Hartnett and French (the junior league officers) could answer.

Notice to Motorists
and Cabmen.

Editor Evening Telegram.

Dear Sir.—The attention of Motorists and Cabmen is particularly drawn to the fact that the Road Commission and Board of Works Department are making repairs to the Portugal Cove Road and are concerned are asked to approach sections of the road on which repairs are being effected, carefully. That section of the Portugal Cove Road beginning at St. John's Bridge and proceeding West is being repaired and at present does not permit pleasant driving. It is suggested, that when possible, drivers and cabmen proceed to or from the Cove via Robinson's Hill.

Attention is also drawn to that section known as Bell's Farm or Rankin's Hill, as very considerable repairs are being effected and careful driving is necessary on this section, and more particular attention is requested to that section beginning at Murray's Pond and proceeding into Portugal Cove. There are three teams employed and a considerable amount of blasting will be carried on beginning with to-day. It is therefore imperative that all drivers take particular notice and be ready to stop when signalled.

TOPSAIL ROAD.

Beginning this morning several teams will be working in conjunction with road making machinery along that section from Mt. Pearl Road to Gibsons or Coward's farm, and the co-operation of all interested is asked, so that the work of the teams employed will not be disturbed any more than is absolutely necessary. It is suggested that the Old Placentia Road and Wireless Road be used during this week.

TOPSAIL HILL.

The middle section of this hill near Arthur Duff's has been recently repaired and has not yet had time to set in. Please drive slowly over new work. Particular attention is drawn to that section near Peter Duff's residence as teams and men are at work and considerable amount of blasting is taking place. Please be prepared to obey all signals to stop. Attention is also drawn to the fact that a considerable amount of repairs has now been completed along the Chamberlain's section and motorists are asked to drive carefully over new work, and also be prepared to stop at signals when approaching that section near Mannell's Bridge, as it is anticipated workmen will have to blast out a few boulders along this week.

TORBAY AND POUCH COVER ROADS.

This road has been temporarily repaired and owing to recent wet weather is likely to give some little trouble and drivers are asked to be careful until the roadbed has had sufficient time to set in.

PETTY HARBOUR ROAD.

It is also anticipated that several teams will be placed on Petty Har. Road and the same co-operation is asked for teams work on this section.

By paying attention to these matters the work of the Commission and Public Works Dept. to improve our roads will be helped considerably. Yours truly,

THOS. SOPER.

TO-DAY'S MESSAGES.

FINED AND MURDERED.
DUBLIN, June 26. Inspector Gooch, stationed at Northwall, was shot dead, and second Lieut. White of the auxiliaries quartered at Northwall, was seriously wounded to-night. The shooting occurred while the men were dining with their wives in a hotel in Dublin. On Saturday night a number of men called at the home of Chas. Trainer, outside the town of Monaghan, and informed his wife that he had been fined \$10 by the Republican Court. She put the fine on a table and two hours later the men returned and shot him dead. They attached a label of "sp" to his body.

SETTLEMENT IN SIGHT.
LONDON, June 26. There was great expectation that a big move would be made towards a settlement of the miners strike at a meeting to-day, arranged by Premier Lloyd George, of owners and miners. The meeting was held at the home of the Duke of Devonshire, and the Duke of Devonshire, who is the national wage board and pool of earnings, and are only asking that a wage scale be arranged, which they can possibly recommend the man to accept, this probably means that something in the nature of the offer made by owners, three weeks ago, will pave the way to peace. Efforts will be made to induce the Government to renew its offer of ten million pounds to tide the industry over the present depression. The leaders will be obliged to consult the miners before signing any agreement, but it is certain that their recommendations, if at all reasonable, will be accepted.

NO CONDITIONS IMPOSED.

LONDON, June 26. Pleasurable surprise was expressed by Sunday morning papers over Lloyd George's invitation to Eamon De Valera and Sir James O'Hara to a Conference with representatives of the Government. It is pointed out that this Peace Movement by Government made thus far, is in view of the fact that no conditions are imposed for the meeting. The conference is regarded as opportune owing to the presence in London of Dominion Premiers.

GOING TOO FAR.

LONDON, June 26. A warning has been issued by the Admiralty that the fog signals on Fastnet, Bullrock and Skellig, off the Southwest coast of Ireland, are unreliable, owing to Sinn Féin raid on lighthouses, which have endangered the lives of sea voyagers.

SMUTS REFUSES.

LONDON, June 26. General Jan Christian Smuts, Premier of South Africa, yesterday declined on behalf of the British Dominion Premiers to receive a deputation of Irish women, including Mrs. P. Sheehy-Skeffington, whose husband was executed in Dublin in 1916. In his reply to the deputation, General Smuts said that Dominion Premiers will doubtless, when the opportunity presents itself, render such service to His Majesty's Government as they find fitting.

DIFFERENCE OF OPINION.

DUBLIN, June 26. Eamon De Valera to-day was in consultation with his colleagues with regard to Mr. Lloyd George's letter. The matter was discussed here, and one high Sinn Féin leader he thought it an insult, and as implying acceptance of partition. Other political leaders saw in the letter an abandonment by the Prime Minister of his repeated war against certain Sinn Féin leaders, as De Valera, they said, would have to choose any colleague he pleased, even men under sentence by court martial.

PREGNANT WITH POSSIBILITIES.

LONDON, June 27. (By Gratton O'Leary, Staff Correspondent Canadian Press).—In the event of Eamon De Valera accepting Premier Lloyd George's invitation to visit London for a peace conference, it is altogether probable that the Dominion Premiers in London will be invited by the British Premier to participate in the negotiations. If Mr. De Valera accepts the invitation, the coming week in London may be one of the most momentous in a century of British history. With miners and employers called to confer to-day, with a host of other important Irish questions present, and with the Anglo-Japanese alliance and all that it involves under consideration, number ten Downing Street will be big with possibilities for the future of the world.

AN UNUSUAL STRIKE.

QUEBEC, June 26. By a joint strike of the employees of the Quebec Police and Fire Departments at midnight on Saturday, the city has since been without police or fire protection. Thirty-eight new policemen have been sworn in, and the Royal 22nd Battalion are ready to act if needed. There were some disorders during the night.

Fined for Netting.

Since the Wards have been removed, netting on the salmon rivers has been reported. On Saturday, the city has since been without police or fire protection. Thirty-eight new policemen have been sworn in, and the Royal 22nd Battalion are ready to act if needed. There were some disorders during the night.
