THE REASON WHY
Dr. Wheeler's Compound Elixir of Phosphates and Calceya is called a Chemical Food and Nutritive Tonic, because Phosphates constitutes more than half the material of the human body, and are absolutely essential to the growth of Bone, Muscle and Nerve, which cannot attain full development without them. They promote a good appetite, perfect digestion, create pure, healthy, vitalizing blood, and supply the waste constantly going on in the system as the result of mental and physical exertion. Being combined with Calceya, the Peruvian Bark, the only specific for Chills and Fever, and that condition of Nervous Prostration and General Debility arising from low vitality and exhaustive diseases, it forms an elegant and agreeable, invigorating Tonic, purely physiological in its action, that may be taken safely under all circumstances, and in all diseased conditions of the body, as it builds up the constitution in the same manner as our daily food.
Sold by all Druggists at \$1.

POSITIVELY A FACT.

The Largest of any Company in the World.

This Society has led the van in the Insurance world for many years; it has introduced more improvements and given greater impetus to the business than any Life Company in the United States, and is deserving in this respect of the praise and gratitude of the community.
There are many reasons for selecting the Equitable Life Assurance Society.
1st—No company has such large annual transactions, thereby infusing into its business a constant accession of fresh and selected lives which is one of the greatest elements of strength.
2nd—In every line of dealing with all claims: observing at the same time, a due regard to the interests of its present large body of policy-holders by a firm resistance to any attempt at imposition.
3rd—Perfect organization in every department, which renders official information easily attainable and secures a complete administration of its affairs.
4th—Being one of the most progressive institutions of its kind in the world, it is ever prepared to seize at once upon all the improvements in the business that science can suggest.
The Equitable Life Assurance Society issues every recognized form of policy, and especially the **FONDS SAVINGS FUND INSURANCE** which the Company introduced. This new plan has become very popular, as equalizing among all who are insured under the advantages which arise from the profits of the business, without in any respect infringing upon the normal results for which Life Insurance was first instituted.
The EQUITABLE feels that it has the strongest claims upon public confidence. Under the management that distinguishes it and the principles by which it is guided, perfect security is given for the future, than which no greater inducement can be held out to all who wish to insure their lives.
Further information regarding the different kinds of Policies issued by the Society can readily be obtained at
